RE: REJOINDER ON YOUR ANSWER TO OUR MOTION FOR
RECONSIDERATION

X-----X

REJOINDER

This is in relation to your answer to our Motion for Reconsideration on the result of the Notice of Evaluation of Ranking in the **Engagement of Services for the Demarcation of Mt. Guiting-Guiting Natural Park Sibuyan, Romblon as Legislated Terrestrial Protected Area under the NIPAS** conducted by your Office.

In your answer, we wish to remark on the following, to wit:

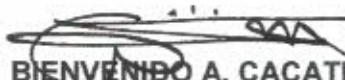

1. We submit to your answer No.1;
2. With regards to the competence and eligibility of the members of BAC and TWG, training is not enough to guarantee the technical competence in the evaluation of bid proposals of survey projects but educational attainment and experience in the field of surveying. We all know that the BAC Secretariat, although a Geodetic Engineer, do not participate in the evaluation of bid proposals. Your inexperience with survey procedures and unfamiliarity with the Terms of Reference was displayed when you called Engr. Roman Legazpi, Chief, Survey and Mapping Division of DENR-MIMAROPA during our Pre-Bid Conference and opening of Technical Proposal. During these calls, he advised you that in biddings like the Engagement of Services for the Demarcation of Mt. Guiting-Guiting Natural Park Sibuyan, Romblon as Legislated Terrestrial Protected Area under the NIPAS, they should be invited to assist the BAC and TWG.
3. In item 3, we do not question the submitted prescribed form. We are questioning the **completeness** of **FPF 1**, Breakdown of Renumeration per Activity wherein the names of personnel should be indicated, otherwise **FPF 1** is deemed incomplete.

In view of the foregoing, I respectfully seek reconsideration of the BAC's evaluation of the ranking of bidders for the above-mentioned project and request the technical assistance of Engr. Roman Legazpi, Chief, Survey and Mapping Division of DENR-MIMAROPA in the evaluation of our Technical Proposals.

For your most kind consideration.

BAC Surveying and Titling Services
