

## **US Embassy Manila Virtual Embassy Science Fellow webinars**

### **Webinar 2 of 4: 17/18 August 2021**

Manila: 0900-1100 Wed 18 Aug; Washington: 2100-2300 Tue 17 Aug

### **Environmental Surveillance: Moving from Prediction to Monitoring to Action**

### **Building citizen science capacities to support climate adaptation**

You are cordially invited to log in for fascinating presentations and exchange on a topic of current global importance. Scientists from Southeast Asia and the United States will discuss and summarize how citizens are supporting the work of science data collection and analysis and how this work is used to help engage the public and change behaviors. This session will emphasize discussion of practical applications and climate adaptation.

Sponsored by U.S. Embassy Manila, this webinar is free of charge but you must register at the link below to receive a **non-transferable Zoom link to join the webinar**. **Space is limited** and available on a first-come, first-served basis. Respondents will need sufficient internet connection to participate in a Zoom call. If you are not able to register or if space is not available at the time of the webinar, the event will be available for live viewing on the American Spaces Philippines Facebook page.
