Hello good morning. Any chance po we can interview an expert to explain what seafoam is? Thanks

The link of the phenomenon is here:

Good morning @Chino Gaston BULA SA DAGAT (CHINOG - ok)
<https://www.facebook.com/100030619062375/posts/569313547432609/?d=n>

Mistulang may naglaba sa dagat dahil sa dami ng bula na napunta sa dalampasigan
Sa mindoro daw ito
Ano yung cause? Natural phenomenon ba ito?
