To all climate change focal persons:

We are pleased to share with you the invitation to a virtual regional dialogue series on scaling up locally led adaptation. Three sets of dialogues will take place across Africa, the Asia-Pacific and the Caribbean and Latin America in September and October.

To register for this event, kindly refer to the link below:

<https://www.eventbrite.co.uk/e/regional-dialogue-series-scaling-up-locally-led-adaptation-tickets-166142266993>

Thank you.

Dear colleague,

I am pleased to extend an invitation to you to a virtual regional dialogue series on scaling up locally led adaptation. Three sets of dialogues will take place across Africa, the Asia-Pacific and the Caribbean and Latin America in September and October.

Please find attached a flyer for the dialogue series. You can [register to attend here](#). **You have been specifically nominated to attend the Asia-Pacific dialogues which will take place on 7 September and 13 October 2021.** You are welcome to invite others so please share with your network.

These regional dialogues are an opportunity for countries and non-state actors to learn from each other and showcase the real potential for locally led adaptation through innovative funding and governance models. In the lead-up to COP26, these dialogues are a key moment to generate momentum and stronger action towards locally led adaptation by decision-makers.

These dialogues are presented by the Adaptation Action Coalition, the COP26 UN High-Level Champions and the Race to Resilience, in association with the Caribbean Natural Resources Institute, Centro para la Autonomía y Desarrollo de los Pueblos Indígenas, Environment and Development Action in the Third World, International Centre for Climate Change and Development, International Institute for Environment and Development, Save the Children Australia, SouthSouthNorth, Sustainable Development Initiative, and World Resources Institute.

Best regards,

Marek Soanes**Researcher, Climate Finance and Climate Risk Management, Climate Change Group**
