MR. ARNOLDO A. BLAZA, JR.
OIC CENRO Coron Palawan

Dear Mr. Blaza,

This is to acknowledged receipt of your letter dated August 11, 2021 in reply to our letter of July 22, 2021. We shall answer you as soon as my quarantine period is completed. Meanwhile, allow me to report another alarming violation of Forestry law (PD 705) that requires immediate action. A group of people is now fencing the whole forested area of Barangay Binakaya. We have protected the said area against illegal logging since 2006. This group are known in the community as "Illegalista" meaning illegal loggers, headed by a certain Giovanni. As of this writing, they have fenced using concrete post, illegally cut trees and barbed wire about 2 kilometers long. There were reports of chainsaw operation in the area possibly cutting of trees are ongoing. We have attached pictures and short video of said illegal activity. We urge you to dispatch a team in the area and dismantle said structures.

Very truly yours,

ALEXANDER B. CARLOS
President
