

Updates from CENRO Puerto Princesa

WED 8:38 AM

Felizardo

Good morning po Mam RED , Sir ARDTS and Mam ARDMS , the signal was restored this morning here in puerto princesa after 5 days of no signal both of smart and globe including electricity and water..we will send our official initial report re typhoon odetta damages..salamat sa panginoon at wala tayong kasamahan sa denr na namatay only ilang bahay ng nga kasamahan natin na nasira at nadaganan ng kahoy at pti gen house sa office at multi-purpose hall na nabutas ang bubong..may 3 kahoy din na uproot sa office at nakadamaged ng 3 vehicle na naka impound..sinasamantala ko signal baka mmya mawala uli..salamat din sa inyong lahat..

Hirap po ngayn Mam ang signal sa ngayn nawawala..may mga reported ng namatay dito ppcity..may ngp tayong nadamaged sa north of the city..i will be going to aborlan today to coordinate wd lgu kng ano maitutulong natin ksi maraming kahoy na natumba..need guidance for this..nakapahiram na rin tau ng chainsaw sa cdrmo last dec 17 till ngayn at nakaextend ng assistance sa nearby communities sa mga nabagsakan ng kahoy na bahay nila and sa mga kalsada..for info

Oo nga po, maraming help from denr ang need para sa mga naputol na puno. Pwede po yata request authority to use for emergency purposes

Felizardo

Yes po Mam..siguro po Mam financial assistance na maipadala sa penro at makasubmit kami sa penro ng mga personnel na affected..ang grabe na naapektohan po ay Roxas, Palawan..

Felizardo

Sir ARDTS we have dispatch(with proper doc) 2 chainsaws to CDRRM of Puerto Princesa last Dec 17 and the other chainsaws in us were used to assist other govt offices including private with damages to their structures and houses that need to be removed for immediate repair..we have only few chainsaws in our office which can still be used(assembled/old units) and we are informing others to coordinate with the pcsd for chainsaws. The office roofing is not damage, only the powerhouse(gen set house), small multipurpose hall(roofing was damaged), some part of the monitoring stns in north of ppcity, some ngp areas previously estab(under assesment and doc) and some house of personnel which were damaged. Signal of globe and smart are just restored but internet signal is unstable. Some banks are in operation and electricity in some areas including our office was just restored yesterday but in other areas none yet including water supply, some gasoline stations are in operation..we hope and pray that it will be back to normal situation..for info
