**MEMORANDUM**

**TO : ALL REGIONAL EXECUTIVE DIRECTORS**

**FROM : The Assistant Secretary for Policy, Planning, and Forest Assisted and Special Projects, and Director, in concurrent capacity**

**SUBJECT : REQUESTING FOR A 10-YEAR HISTORICAL DATA ON FIRE INCIDENCE**

**DATE : JUN 09 2021**

Please be informed that we are currently in need of relevant data for the development of a Forest Fire Danger Rating System (FFRDS) that should be able to predict or forecast the probable occurrence of a forest fire at a certain time and location on a national scale based on historical data of forest fires. The FFRDS should be able to help us prevent forest fire and at the same time deploy forest officers when forest fires eventually occur.

In view hereof, we request your Office to provide us with the forest fire incidence data for every CENRO for the last 10 years i.e. 2011-2020. The requirement for the historical data on forest fire incidence is a requirement of the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA). This has been repeatedly mentioned to us by the PAGASA that the longer historical data will result in a more accurate prediction modelling of possible occurrence of forest fires.

We will appreciate receiving the filled-out matrix on or before 30 June 2021.

FOR YOUR CONSIDERATION, PLEASE.
