Dear RED Ferrer,

Warmest greetings from BFAR MIMAROPA!

The Fisheries Management Area (FMA) 5 is currently completing the set of FMA Bodies specially its Management Board (MB). The said MB composes of elected representatives from identified sectors for the successful operationalization and harmonious formulation of internal rules and regulations. These policies will be based on available science data and hence will be used in governing the said FMA area.

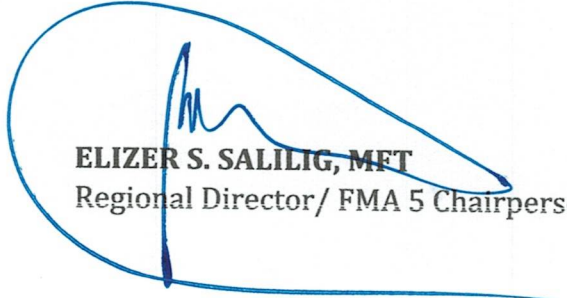

As the areas of the FMA 5 includes some NIPAS areas the MB have remarked the key roles of PAMB (Protected Area Management Board) in effective crafting of policy and regulations for FMA 5, wherein the PAMB have greatly contributed to the effective management of NIPAS areas. With this the MB have decided that the PAMB will take a sit on the FMA Management Board.
