

**CORON BAY WATER QUALITY MANAGEMENT AREA  
GOVERNING BOARD**

Coron, Palawan

**MINUTES OF SECOND QUARTER VIRTUAL GOVERNING BOARD MEETING  
CY 2021**

**Venue:** Virtual Meeting via Microsoft Teams

**Time:** 1:30 PM – 4:50 PM

**Date:** June 16, 2021

**Attendees:**

Atty Michael Drake P. Matias	-	CB WQMA Chairperson, EMB MIMAROPA
Arnoldo A. Blaza, Jr.	-	OIC-CENRO Coron / DENR
Pedro Velasco	-	CENRO Coron
Demi Patricia A. Decena	-	DENR PENRO
Pablito M. Estorque Jr.	-	EMB MIMAROPA
Edna Velasco	-	EMB MIMAROPA / PEMU Palawan
Michael Fababier	-	LGU Coron
Carina Isabel R. de Leon	-	NWRB
Faye Reyes	-	DOT
Marfen Sarmiento	-	NIA
Conrad Balbutan	-	NCIP
Erwin S. Gatpandan	-	PPA TMO Coron
Marione Deanna T. Comboy	-	DHSUD
Mirabelle B. Lanuza	-	NEDA NRO MIMAROPA
Chelsea Coleen V. Tamayo	-	DILG
Ma. Christina D. Rodriguez	-	PCSD
Teodorico De Guia	-	NRWWSA (NAWASA) Coron
Francisco P. Fernandez Jr.	-	CATE
Mark Angelo S. Rogel	-	EMB MIMAROPA / EMS Coron
Maevelyn Kathryn D. Tupasi	-	EMB MIMAROPA / CBWQMA Secretariat
Karl Alexander R. Dammay	-	EMB MIMAROPA / CBWQMA Secretariat
Sharmaine G. Maniego	-	EMB MIMAROPA / CBWQMA Secretariat

**Guest:** Bryan M. Cabarles - Dreambolts Builders Corp. / STP Contractor

CBWQMA Members : 26 members

Number of Members Present : 14 members

Number of Members Absent : 12 members

**CORON BAY WATER QUALITY MANAGEMENT AREA  
GOVERNING BOARD**

Coron, Palawan

**PROCEEDINGS:**

**A. Call to Order**

The meeting was called to order at around 1:40 PM.

The CB WQMA Secretariat checked the attendance and recognized the presence of the members.

There are 14 members present thus a quorum was achieved.

**B. Presentation and Approval of the Agenda**

The provisional agenda were as follows:

1. Review and approval of previous minutes
2. Presentation of accomplishments and water quality status
3. Updates on the medium-scale STP of Coron
4. Status of Ordinances and its implementations
5. Status of clearance and permits of commercial establishments within the WQMA
6. Report on the drainage pipes seen along the coastal area of Coron Bay
7. Presentation of WQMA Activities for the Rehabilitation of Coron Bay
8. Other Matters

The CBWQMA Secretariat presented the above-stated agenda. The agenda was approved as presented after the suggestion of CATE President Mr. Fernandez, inclusion of status of clearances and permits, was overruled since it will be included in the presentation of agenda item number 5.

**C. Presentation of the Minutes of the Previous Meeting**

The minutes of the previous governing board meeting was presented by the CBWQMA Secretariat. The highlights include the plans of constructing a medium scale STP for Coron, the rehabilitation efforts for Coron Bay and the requirements in the establishment of a TSD facility for hazardous wastes generated specifically by tourist motor vehicles.

The members approved the presented highlights of the previous meeting.

**D. Matters Arising from the presented minutes including the status of STP and implementations of Ordinances presented during the last quarter meeting**

CONCERN / ISSUE	UPDATE
Approval and Status of Implementation of Ordinances	Ordinance No. 18 dated February 17, 2020: Creation of MENR Officer and MENR Officer  Ordinance No. 88A series of 2020 on December 14, 2020

**CORON BAY WATER QUALITY MANAGEMENT AREA  
GOVERNING BOARD**

Coron, Palawan

	<p>Establishing Proper Sewage Treatment and Septage Management System with prescribed penalties has been approved by the Sangguniang Bayan</p> <p>Ordinance on Solid Waste is awaiting for approval. The delay was due to the current pandemic situation</p>
Medium Scale STP	<p>The plan for the STP is intended for everyone. The constructed (100% done) medium scale STP is for business establishment who cannot put up their own STP.</p> <p>Projected start of operations will be on July 2021. Currently in the process of procuring hauling trucks. A report will be submitted once the trial run is conducted. The delay in procurement is due to the current pandemic situation since all funds were re-allocated for Covid 19 response.</p> <p>The hauling cost is yet to be provided but it will be based on the approved sewage management ordinance.</p>
Sanitary Landfill	<p>SLF Status: Ongoing processing of SLUP (Special Land Use Permit) and ECC (Environmental Compliance Certificate). One requirement is the tenurial instrument so the EMB advised the LGU to secure tenurial instrument first for the processing of their ECC. The LGU has a proposed design but it will still be subject for assessment. The LGU will await for the recommendations from MGB and EMB. The timeline of completion will depend on the approval of SLUP and ECC. The SLF project costs PhP 71M. This will be loaned to Landbank.</p> <p>MOA (Memorandum of Agreement) has been made with the NCIP</p> <p>MGB together with EMB had conducted site assessment</p>
Relocation Project	<p>Location is Brgy. San Nicolas</p> <p>On-going site development and land clearing</p>

**CORON BAY WATER QUALITY MANAGEMENT AREA  
GOVERNING BOARD**

Coron, Palawan

	Target date for the start of construction will either be in the month of August or September because they have yet to complete the processing of necessary permits for compliance
--	---

73

74 **E. Presentation of the Accomplishments and Water Quality Status**

<b>TARGET</b>	<b>ACCOMPLISHMENT</b>
Water Quality Status	The general public can make use of the website to view the water quality status of Coron Bay  The location of water sampling stations were moved because of the reclamation activities done. The updated GPS coordinates were presented and mapped.
Map of Establishments within WQMA using ArcGIS	The map is presented to the board (see attached)
Study on Pollution Load	Initial Data on Establishments within WQMA is presented (see attached)
Status of Compliances of Establishments within WQMA	Power BI is shown

75

76 **F. Issues and Concerns Raised during the Meeting**

<b>CONCERNS</b>	<b>RESPONSE</b>
Processing of Discharge Permits: Since the current pandemic has stopped the flights to and from Coron, the analysis of effluent has been a pressing problem in the compliance. This was raised by the CATE President since Coron does not have an environmental laboratory that can cater such analysis	For new application, no effluent analysis is required. For the renewal, since there is pandemic, the latest laboratory test report may be attached together with the water bill where water consumptions is reflected. The application for renewal prior to the expiration of permits is encouraged to avoid penalties.
Discharges do not only come from business establishments but also from the residential	Sampling stations were moved from its original location because of the impact of reclamation activities in Coron Bay. This is currently being assessed and the results will be presented in the succeeding meetings.

# **CORON BAY WATER QUALITY MANAGEMENT AREA GOVERNING BOARD**

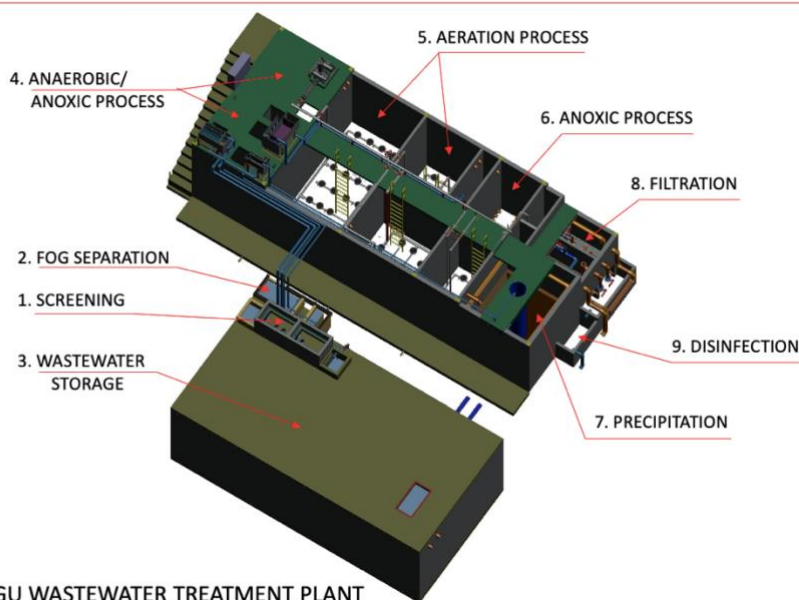

Coron, Palawan

Drainage Outfalls to Coron Bay	Coron Bay also receives discharges from tributary creeks and drainage canals. The identification of these outfalls was during the last quarter of CY 2019. These were set to be monitored for CY 2020 however due to the current pandemic, water quality monitoring was put on hold.
Proposed Satellite Laboratory in Coron	<p>The EMB is looking into possibilities of having a satellite laboratory in Coron but it is still in the proposal stage.</p> <p>The NEDA is supportive of the idea and that they will await for the proposal to be finalized and be presented to the Board and to the RDC for possible endorsement for funding.</p>

## **G. Updates on the Medium Scale STP for Coron**

- The contractor, represented by Engr. Bryan Cabarles, was invited to the board meeting to discuss the Wastewater Treatment Plan Process

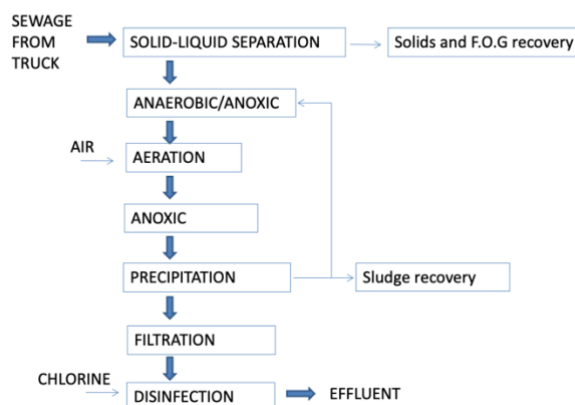

CORON LGU SEWAGE TREATMENT PLANT".pdf

**CORON BAY WATER QUALITY MANAGEMENT AREA  
GOVERNING BOARD**  
Coron, Palawan

STP PROCESS FLOW

- The NEDA asked about the treatment process of other waste materials. This was also reiterated by the EMB with the focus on hazardous waste materials. The Contractor could not yet fully address these concerns because they have yet to try and run the system. The CBWQMA Secretariat then just requested for a progress report from the contractor so that the Board will be informed on the steps that they will take and what other processes they need to employ. The presented treatment process flow seems very vague as it was presented by the contractor. There are still flaws that they need to correct based on the initial assessment made during the presentation.
- The NEDA asked about the capacity of the STP and the number of establishments that it can accommodate. The Contractor said that the capacity is 150 cubic meters per day and the project cost is PhP 15M.
- The CATE President said that there must be Technical Person to be trained to operate the STP before turning it over to the LGU. Citing his own STP, he is concerned about how to keep the STP running once the contractor leaves.
- The same concern stated by EMB and LGU on training a dedicated person with technical knowledge in operating the system of STP.
- The Coron NAWASA shared about the same project that they have on the construction of medium scale STP and that the start of the project was held in abeyance due to the current pandemic.

#### **H. Proposed Activities for the Rehabilitation of Coron Bay**

- The CBWQMA Secretariat opened the floor to the board for suggestions on possible activities that can be done for the rehabilitation of Coron Bay
- The NEDA asked if there are personnel on the ground to execute and monitor the implementation of the action plan. The CBWQMA Secretariat said that there is an Environmental Monitoring Services – Coron (EMS-Coron) lodged at CENRO Coron and at the same time, field focal person for Coron Bay WQMA.

## CORON BAY WATER QUALITY MANAGEMENT AREA GOVERNING BOARD

Coron, Palawan

- The EMB reported that all monitoring activities pertaining to water quality management and monitoring never stopped and that the EMS Coron headed by Engr Mark Angelo Rogel ensures the compliance of the LGU pertaining to WQMA. The lockdown though has made most of the activities impossible especially the monthly scheduled water sampling for Coron Bay and the tourist island destinations as well as the start of the water quality monitoring for outfalls.
- The members requested for a copy of the Action Plan for Coron Bay WQMA before they can propose activities
- Engr Estorque of EMB asked for comments from the LGU and PCSD about the ongoing reclamation project and wanted to know who the proponent of this project is. The PCSD representative, Ms. Rodriguez, reported that the project has SEP Clearance however the total applied area is not indicated in the report. The proponent of the project is the Provincial Government.
- The LGU will submit a report on the reclamation area for the information of the Board.

### **I. Other issues raised during the meeting**

- The Coron – Culion Bridge Project was raised by NEDA. The project was stopped due to lack of requirements, documents and ECAN zoning certification according to Ms. Rodriguez of PCSD. CENRO Blaza of CENRO Coron also said that the project was stopped and that reports were already submitted to the DENR Central Office on this matter.

### **J. Adjournment**

- CENRO Blaza gave his closing message. The meeting was adjourned at 04:50 PM.

### **Prepared by:**

  
**MAEVELYN KATHRYN D. TUPASI**

Focal Person CB-WQMA

### **Attested by:**

  
**PABLITO M. ESTORQUE JR.**
