This pertains to the on-going PASA for MSPLS wherein majority of the stakeholders consulted preferred for the modification of the boundaries of the protected area. On October 20-22, 2021, the spatial analysis team conducted a workshop to come up with the potential areas recommended to be excluded from the protected area.

In view of the above, we respectfully requests for a virtual meeting on **November 23, 2021 (2:00pm)** to present the updates on the activities for the above assessment, present the results of the spatial analysis workshop and seek guidance on the drawing of modified boundaries for MSPLS based on the initial analysis and data collected prior presenting them to the concerned stakeholders for further consultation.

Attached is the proposed agenda for the said meeting. The zoom link will be furnished to that Office as soon as possible.
