Dear President Rodrigo Roa Duterte,

We would like to introduce to you the situation of our Municipality of Brooke's Point which is solemn and called "Fruit Basket of the South" but today, we are called "The Horror of the South" because of the mining company that doing a business without permission.

Brooke's Point is known in Palawan as a supplier of fruits and vegetables and it is called "Fruit Basket of the South".

Atty. Maryjean Delos Angeles Feliciano (suspended by ombudsman) was not inclined with the mining operation in Brooke's Point. We fight alongside to not to operate the mining. Through social media and peaceful rallies, because they started to cut trees without DENR permits and Chainsaw Permit, and most of all, they do not have a single permit in their hand to operate.

They cut century trees without permits, those trees are very important in our environment and to hold any flash floods and landslides.

The results of the Cutting of Trees: (Cause and Effect)

Landslides

Landslides

Severe Flash floods:

Our farmers suffered too much for the cause and effect of Ipilan Nickel Corporation Mining Company;

Our farmers suffered too much for the cause and effect of Ipilan Nickel Corporation Mining Company:

Our farmers just want to have a living but today, how can they live like this? Even the vegetable sectors do not have harvests because all of those are now under the floods.

Can you imagine this Our beloved President, even me, I am crying while making this letter as I cannot take it. This is cruel and inhumane, they are greedy and they do not care about the life of the people around them.

I know Sec. Cimatun was here also, and even himself barred to enter to the premises of the Mining company. Even the lawyer of the Ombudsman and DENR barred to enter the mining company we are puzzled how these people live to the expense of the lives of the people.

We wish that you may help us Mr. President and your other agencies to stop the mining company as Brooke's Point suffered a lot especially Palaw'an (Natives), farmers, residents nearby, and us that are directly affected by floods.

Maraming salamat po at umaasa an kami ay inyong Matulungan

Jonathan Miano Jr
