## MEMORANDUM

Date: 10-15-2021  
By: [Signature] pp 11/41/1  
Ref. Code: 140163

FOR : The CENR Officer  
CENRO Calamianes Islands  
Coron, Palawan

FROM : The OIC, BPR Management Office

SUBJECT : **REPORT ON LAWIN MONITORING AND PATROLLING  
ACTIVITIES OF BPRMO WITHIN THE FOREST  
CONSERVATION AREA (FCA) OF BPR FOR THE MONTH OF  
SEPTEMBER 2021**

DOCUMENT  
ATTACHED : BPRMO SMART-generated report;

DATE : **OCT 15 2021**

With the implementation of the Lawin Forest and Biodiversity Protection System, respectfully submitted is the detailed report of the Busuanga Pasture Reserve Management Office (BPRMO) on the results of the Lawin monitoring and patrolling conducted in the Municipalities of Busuanga and Coron, Palawan within the BPR area for the month of September 2021.

### I. Findings and Result

Two (2) Patrol Teams were dispatched during the conduct of this activity within the Forest Conservation Area (FCA) of BPR situated in the Municipalities of Coron and Busuanga, Palawan. The target distance for September 2021 is 30 kilometers (km) based on the Lawin Patrol Plan for 3<sup>rd</sup> Quarter of 2021. Based on the results, the BPRMO Patrol Teams were able to traverse an aggregate distance of 28.92 km or 96.40 % (Table 1).

Table 1. BPRMO LAWIN monitoring and patrolling accomplishment for September 2021

Months	Target (Km)	Accomplishment (Km)	Difference (Km)	Accomplishment (%)
September	30	28.92	-1.08	96.40

*\*The accomplishment rate is computed based on the 30 kilometer target per CENRO/CA per month compared to the sum of the distance patrolled per CENRO/CA.*

Table 2 shows a total of 123 Forest Condition Counts (FCCs) recorded during the patrolling. Early Secondary Forest (ESF) appears to have the highest figure recorded for September 2021 with 49 counts or 40%, while Old Growth Forest have the least with 5 or 4% recorded observations. The remaining forest conditions such as: Open-Uncultivated (OUC), Open-Cultivated (OC), and Advance Secondary Forest (ASF) with corresponding total figures of 43 (35%), 11 (9%), and 15 (12%), respectively. Based on the SMART analysis, the total FC with good condition has a total count of 69 or 56% which includes OGF, ASF and ESF.

Table 2. Patrol Observation: Forest Condition Counts

Forest Condition											
OGF		ASF		ESF		OUC		OC		Total	
Count	%	Count	%	Count	%	Count	%	Count	%	Count	%
5	4	15	12	49	40	43	35	11	9	123	100

*OGF-Old Growth Forest. ASF-Advance Secondary Forest. ESF-Early Secondary Forest. OUC-Open, Un-cultivated. OC-Open, Cultivated*

With respect to the presence of natural regenerants, 68 FCCs or 55% of the total FCC were recorded with presence of natural regenerants while 55 FCCs or 45% with absence of natural regenerants. There were three (3) or 2% recorded dense natural regenerants, while thirty-eight (38) FCCs or 31% and twenty-seven (27) or 22% are recorded as moderate and sparse natural regenerants, respectively (Table 3).

Table 3. Patrol Observation: Natural Regenerant Count

Regenerants										Total Forest Condition	
Presence of Regenerant								No Regenerants			
Dense		Moderate		Sparse		Total					
Count	%	Count	%	Count	%	Count	%				
3	2	38	31	27	22	68	55	55	45	123	100

There is no recorded observation of threats during the conduct of patrol and monitoring. The current threat index is computed as 0 threats per kilometer (T/Km) in September 2021, same from August 2021.

## II. Remarks and Recommendations

1. Frequency of the visibility of patrolling and LAWIN monitoring within the Forest Conservation Area of BPR is being intensified to include weekends, if necessary, in order to prevent and immediately address any possible threats within the forested areas of BPR;
2. Observed unlawful activities in the ground is being thoroughly investigated and documented and filing of appropriate criminal complaints against the offenders pursuant to Presidential Decree No. 705 and other environmental laws, if so warrant;

3. Conduct of seminar/IEC to every barangay recorded with high incidence of unlawful activities within the area covered by the BPR to provide awareness and educate the community on the importance of maintaining ecological and environmental balance in the locality and the benefits that could be derived from the forest and climate change mitigation; and
4. Conduct of rehabilitation activities such as tree-planting, enrichment planting and assisted natural regeneration to maintain and accelerate recovery of forest cover.

For the CENR Officer's information, record and further instruction/s, if any.

## Annex A

Republic of the Philippines  
Department of Environment and Natural Resources  
Lawin Forest and Biodiversity Protection System

### Summary Patrol Report

#### Region 04B - BPR

Number of days analyzed: 30

Oct 15, 2021 2:58 PM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

#### Overall accomplishment rate\*

##### Level of Accomplishment

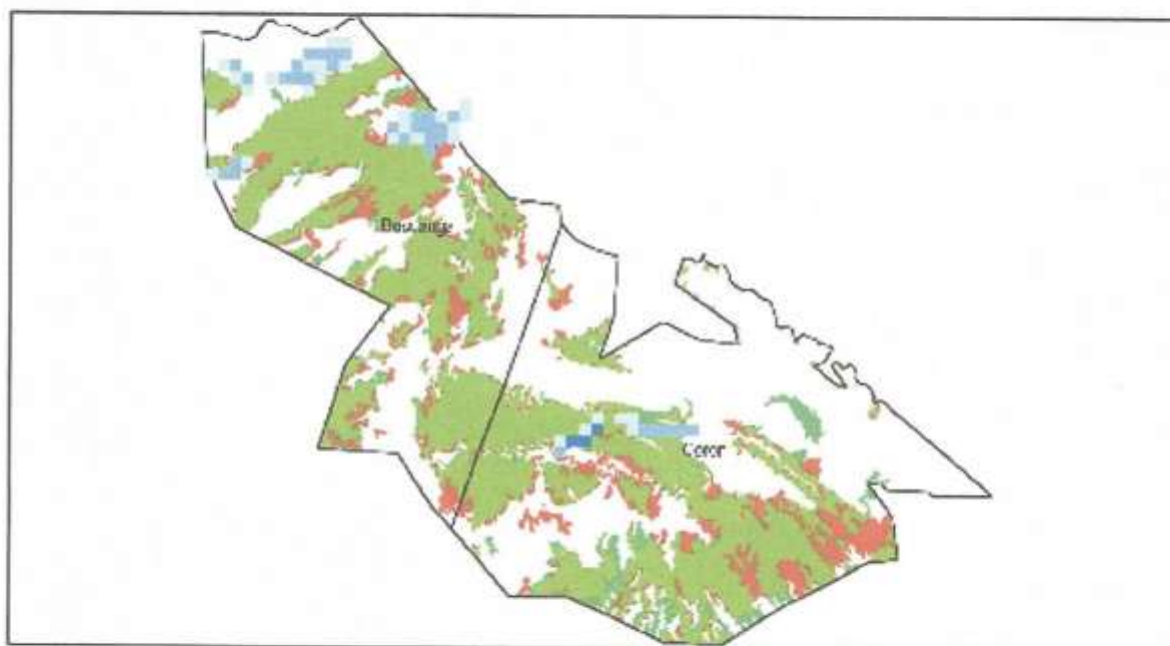

● Accomplishment  
● Target

Accomplishment*	Target* distance
for the period	for the period
28.94	90.00

Accomplishment Rate:  
32.16%

\* Target is computed based on 10km target per team of 4 DENR patrol officers per month

Patrol coverage and intensity

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Archie Agnes	20.40
Gricilito Lagao	20.40
Jojie Montanez	20.40
Leonardo Puno	20.40
Dindo Sarmiento	8.54
Ibrahim Factuar	8.54
Michael Acbang	8.54
Roderick Vallajo	8.54
Rommel Gacayan	3.97
Rovelyn Cruz	3.97

## Forest Protection Effectiveness Report

### Region 04B - BPR

Number of days analyzed: 273

Oct 15, 2021 2:48 PM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

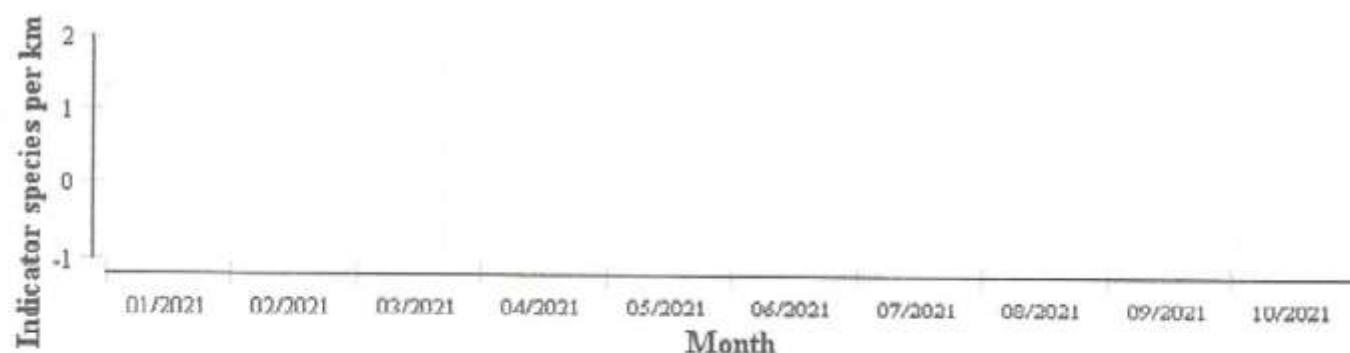

### Trends of Observations per Patrol Kilometer in the Forest Conservation Area

#### Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

#### Trend in Indicator Species

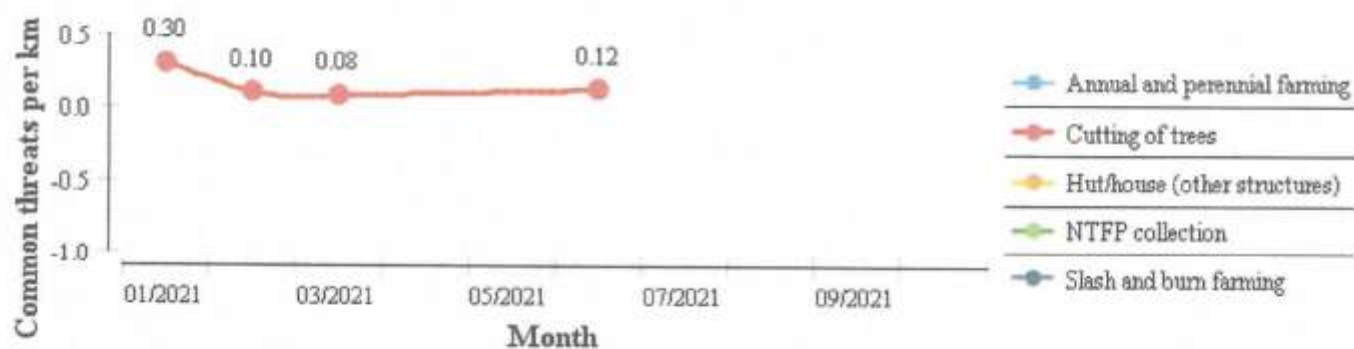

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

### Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

### Trends of most common Threats

## Annex C

Republic of the Philippines  
Department of Environment and Natural Resources  
Lawin Forest and Biodiversity Protection System

### Summary Threat Report

#### Region 04B - BPR

Number of days analyzed: 30

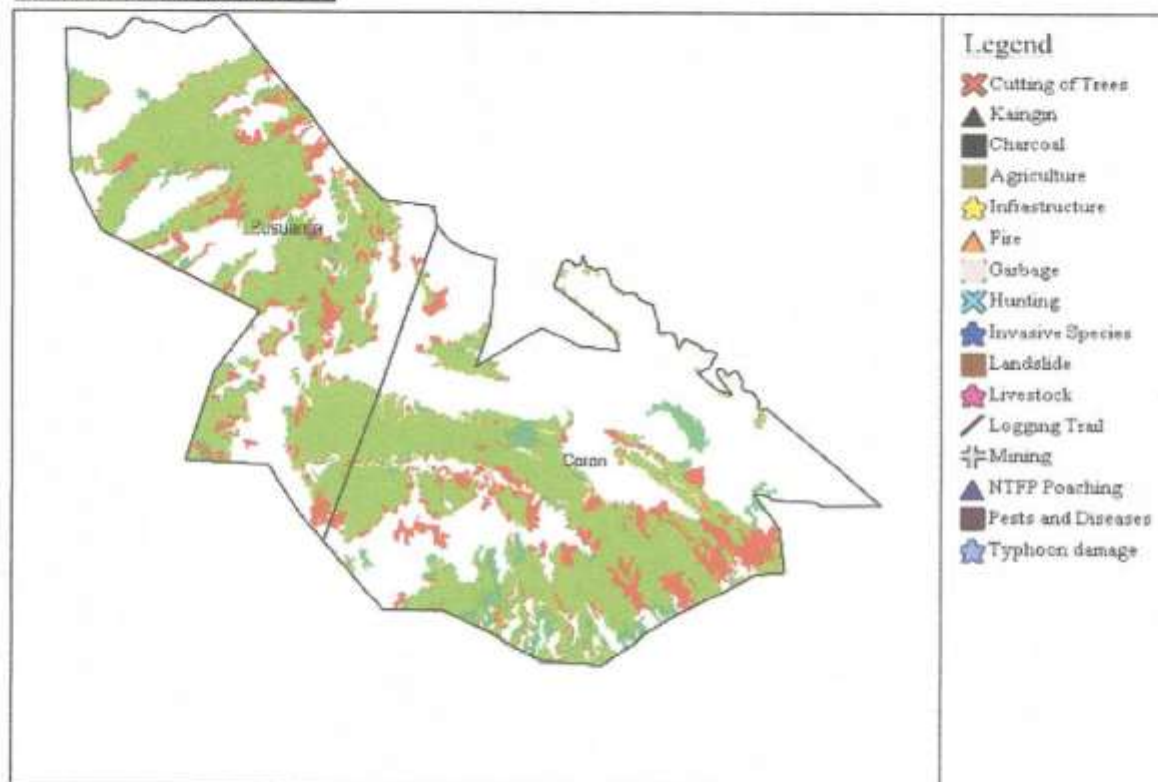

Oct 15, 2021 2:29 PM

This report presents information for the implementing units of DENR to effectively plan and carry out actions for addressing observed threats to the forest.

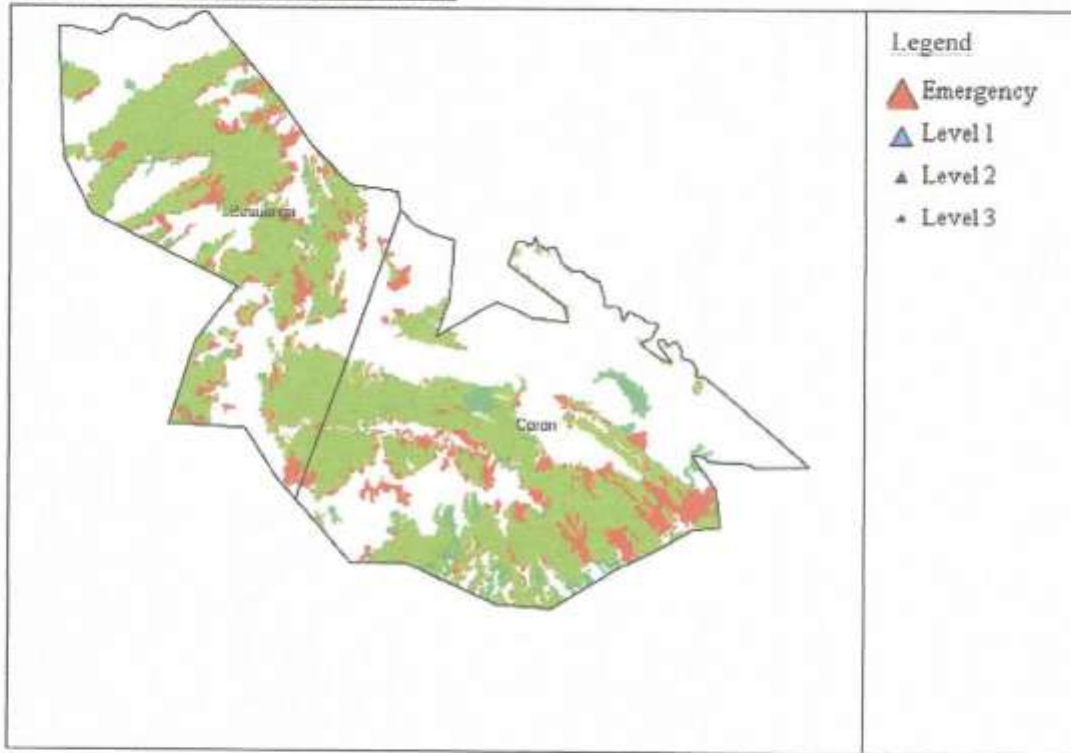

#### Threats observed and level of response required

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
--------	---------------------	--	---	--

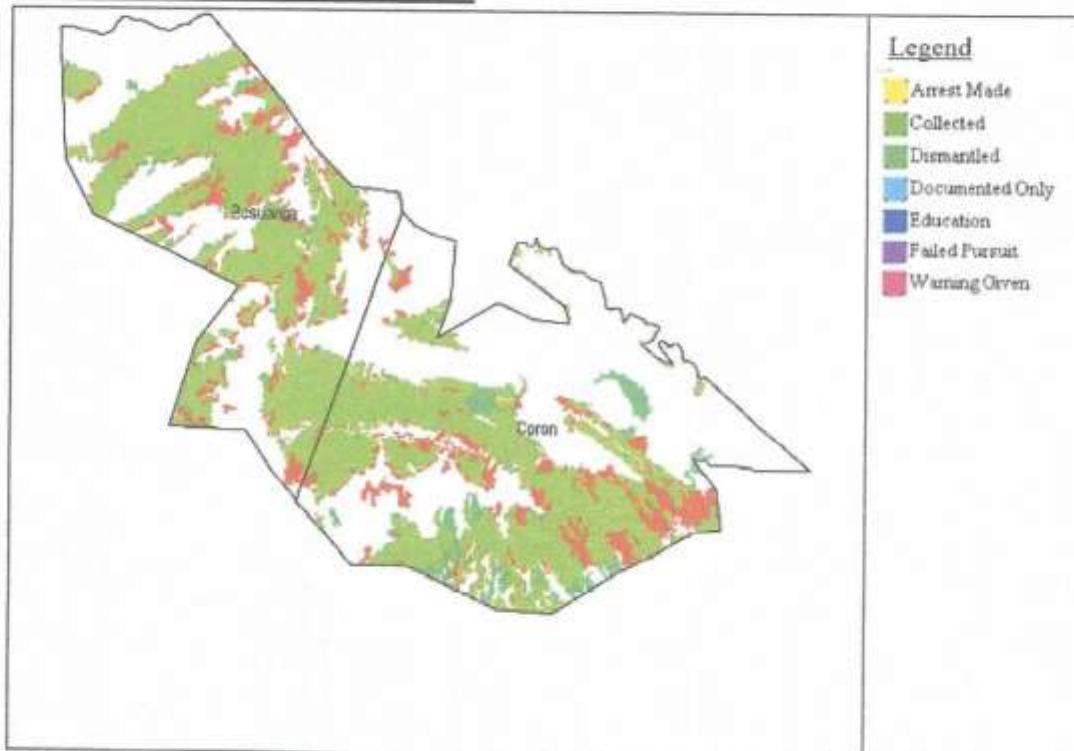

#### Location of observed threats

Locations and urgency of responses needed

Locations of actions taken to address threats

Actions taken to address observed threats during patrols

Department of Environment and Natural Resources

## Summary Response Report

Number of days analyzed: 30 Oct 15, 2021 4:00 PM

**Number of threats observed:**

Immediate action required	Requires action within a week	Requires action within a month	No further action required

No action yet	Requires further action	Addressed	Invalid observation

Threat	Admin. proceedings	Coordination with LGU	Devt. project	Education	Garbage cleanup	Inv. sp. removal	Prosecution	Policy formulation	Wildlife rescue
--------	--------------------	-----------------------	---------------	-----------	-----------------	------------------	-------------	--------------------	-----------------
