Please be informed that on September 18, 2021 at around 1:00 o'clock in the afternoon the team of DENR-CENRO Roxas Palawan team together with the representative of the MENRO and Barangay LGU went to the subject area and conducted the clean-up. The team collected the trash along the estimated 100 meter coastline of Purao Island an approximately 80 kilos of trash and mostly consist of empty beverage plastic bottles, glass bottles and food wrappers. The most unlikely trash collected are facemask and diapers. The trash collected were later brought to the Material Recovery Facility of LGU Roxas, Palawan with the help of the MENRO representative. The undersigned also discuss the importance of proper disposal of waste to the residents and caretaker of the island.

Attached are the photo documentation, trash collected sheet and attendance sheet for your ready reference.

VOLUNTEER

OCEAN TRASH DATA FORM

Ocean and waterway trash ranks as one of the most serious pollution problems choking our planet. Far more than an eyesore, a rising tide of marine debris threatens human health, wildlife, communities and economies around the world. The ocean faces many challenges, but trash should not be one of them. Ocean trash is entirely preventable, and data you collect are part of the solution. The International Coastal Cleanup is the world's largest volunteer effort on behalf of ocean and waterway health.
