**ENVIRONMENTAL ORGANIZED CRIME IN THE**  
**PHILIPPINES**

The DENR-Biodiversity Management Bureau (BMB) is currently implementing the “DENR-ADB/GEF Project on Combating Environmental Organized Crime in the Philippines.” The three-year Project aims to combat environmental organized crime in the Philippines through legal and institutional reforms, capacity building in the full law enforcement chain, and reduction of demand for illegal wildlife and wildlife parts and derivatives.

As part of its CEPA campaign, the Project has developed CEPA materials to raise awareness on the issue of illegal wildlife trade. In this regard, we are pleased to furnish you with physical copies of the said CEPA materials, in the form of indoor and outdoor posters for distribution amongst your Field Offices. We likewise advise to post these materials in strategic locations, particularly in sea and air ports in your jurisdiction.

For your consideration.
