MEMORANDUM

FOR : The OIC PENR Officer

THRU : The Chief, Technical Services Division (TSD)

FROM : The PENRO CSC Evaluation/Assessment Team

SUBJECT : **EVALUATION/ASSESSMENT OF PERFORMANCE BY CERTIFICATE OF STEWARDSHIP CONTRACTS (CSC) HOLDERS AT BARANGAY MALBOG, BUENAVISTA, MARINDUQUE.**

Submitted is the attached narrative report regarding the compliance monitoring and evaluation/assessment of Certificate of Stewardship Contract (CSC) holders at Barangay Malbog, Buenavista, Marinduque with maps, geo-tagged photos and other relevant documents, per evaluation/assessment conducted by the Compliance Monitoring team on April 20-22 and 27-30, 2021.

A total of fifty-three (53) participants were subjected for evaluation/assessment activities with the assistance of concerned LGU (Barangay Malbog), the orientation of CSC participants and concerned authorized representative/next-of-kin was initially conducted, before the field inspection/validation of improvements within their respective CSC lots. During the orientation majority of holders were verified no copy of CSC documents including the sketch/map.

Based on the result of evaluation/assessment of original recipients of CSC Agreements, it was ascertained that a total seven (7) participants were verified deceased out of fifty-three (53) participants, hence, only their representatives were present during the evaluation and assessment activities. Their awarded tenurial instrument were already expired since 2019, however, they are continually utilizing their lots as source of livelihood.

Republic of the Philippines
Department of Environment and Natural Resources
PENRO Marinduque

Fifty-one (51) Certificate of Stewardship Contract were recommended for renewal and the remaining two (2) for cancellation.

NARRATIVE REPORT ON THE PERFORMANCE EVALUATION/ASSESSMENT OF CERTIFICATE OF STEWARDSHIP CONTRACTS (CSCs) HOLDERS AT BARANGAY MALBOG, BUENAVISTA, MARINDUQUE.

I. BACKGROUND

Certificate of Stewardship Contract (CSC) is an agreement entered into by and between the government and individuals/ families actually occupying or tilling portions of forestlands with duration of 25 years, renewable for another 25 years. The management of CSC areas were devolved to LGUs in 1992. However, in 1995, ISF and other people oriented forestry programs were integrated under the Community-Based Forest Management Program (CBFMP) with a banner of "People first and Sustainability will follow."

With the devolved, expiring and expired CSCs in PENRO Marinduque, performance evaluation and assessment of CSC holder's improvements introduced within their awarded lots are conducted to monitor whether the terms and conditions of their lease agreement were followed or not violated. A total of 250 lots are targeted in CY 2021 for such activity.

The assessment was based on FMB Technical Bulletin No. II- Supplemental Guide on the Evaluation of Certificate of Stewardship Contracts. The purpose of the evaluation is to determine the extent of development introduced by the holders and their compliance in their stewardship contract.

Before the actual field assessment/evaluation, the team have coordinated with the barangay officials before conducting orientation/consultation meeting and scheduling of the field activities per CSC lot.

Prior with the CSC evaluation and assessment the PENR Office of Marinduque issued Special Order No. 2020-013 series of 2020, which created two (2) composite teams to effectively implement and accomplish the said target this year.

II. CONDUCT OF ORIENTATION/MEETING:

The composite teams from personnel of Monitoring and Enforcement Section (MES), Regulation and Permitting Section (RPS) and Conservation and Development Section (CDS) the discussed how CSC evaluation will be conducted in the said Barangay. The meeting/orientation was held with the presence of CSC holders/representatives and local barangay officials.

The said monitoring and evaluation activity, gave opportunity to discuss the GAD related target activities to ISF participants. The team emphasized that women have equal rights with men to participate in the tilling/cultivating of ISF project area. It is important that women are actively contributing their effort to actively manage and improve/develop their lot.

Generally, it was also focused on the mandatory requirements and responsibility of CSC holders to comply with the terms and conditions of their CSC contracts to avoid the cancellation of their tenurial instruments. Furthermore, levelling-off with participants was done to gain their support during the evaluation/assessment activities in the field.

III. SUMMARY RESULT/FINDINGS AND RECOMMENDATION:

Per result of Evaluation/Assessment activities, a total of Fifty-Three (53) holders were contacted in the said barangay, it was verified that some of them were already deceased, old aged and residing outside the province. However, relatives or next of kin of deceased holder still continue on cultivating the CSC lot with consent. The improvements introduced by the CSC holders/representative in the ISF area the usual agricultural cash crops. They are much focused on permanent crops (coconut) instead of other cash crops. Historically the lot was planted with high value crops such as Coffee, Cacao, Rambutan and Lanzones.

The ISF areas dominated by planted coconut and some patches of naturally growing trees, shrubs and grass vegetation. The distant location of the project area from the community got difficult on their part to regularly managed, protect and maintained their awarded lot. However, holders were observed exerting their efforts to cultivate their ISF area although there are some other more important job or source of income to be attended.

A total of 53 holders were assessed/evaluated their compliance to the terms and conditions of their Certificate of Stewardship contracts. The subject CSC's were already expired since 2019 and upon evaluation and assessment of their awarded lots, two (2) CSC holders were recommended for non-renewal due to claim conflict and sold their lots to relatives.

III. ISSUES AND CONCERNS:

1. The subject CSC's (Certificate of Stewardship Contracts) were already expired however they are continuously occupying their lot even without renewal application;

2. Two of the CSC holders have conflict in terms of unauthorized occupation by other CSC holders, In case of Eladio Villavicencio and Eulogio Javier, their coconut palms and fruit-bearing trees, etc. were allegedly sold by their aunt without their knowledge to a certain Washington Sadiwa, thus recommended for non-renewal and to settle first the conflict between the said parties.
3. Some of CSC participants were already deceased and no formal documents or proof which transferred their responsibility to their next-of-kin or nearest relatives and other individuals presently cultivating the ISF lots. Some other lots were discovered cultivated or managed by their representative unaware about the ISF program and obligations of occupants;
4. The CSC participants are not fully attending their awarded lot because they were more engaged to other jobs to support their family. Some of them were already incapacitated due to old age and there are cases that their representatives are engaged with other job;
5. Some of CSC lots were observed unproductive as holders did not maximized the use of their awarded lot and mostly engaged in coconut farming. They failed to apply sustainable forestry in cultivating their lot.
6. Some of CSC participants or their representatives has no copy of CSC, sketch map and other related documents to confirm them as official ISF members.

IV. REMARKS AND RECOMMENDATION:

1. That the next-of-kin or authorized representative by the CSC holders who have qualified to renew their contracts be required to submit letter of intent to renew and designate them as authorized occupants of the ISF lots;
2. Intensive Information, Education and Communication (IEC) campaign should be conducted to the above-cited barangays on the responsibilities of a CSC holders;
3. Technical support to the CSC holders in the management and development of their individual lot; and
4. The Regional Office must conduct further Evaluation/Assessment of the two (2) ISF sites recommended for non-renewal of the CSC contracts to settle the conflicts on claim.
