MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region

THRU : The Assistant Regional Director for Technical Services

FROM : The OIC, Provincial Environment and Natural Resources Officer

SUBJECT : DOCUMENTATION REPORT ON THE PERFORMANCE
EVALUATION OF HOLDERS OF CERTIFICATE OF
STEWARDSHIP CONTRACTS (CSCs) LOCATED IN
BARANGAY TABIONAN, GASAN, MARINDUQUE.

In accordance with approved Work and Financial Plan for CY 2021 of PENRO Marinduque, submitted is a Memorandum Report dated March 26, 2021 of the CSC Composite team with the following attachments:

1. Tabulated Summary Report on the Performance Evaluation of Certificate of Stewardship Contract Holders at Barangay Tabionan, Gasan;
2. Sketch Map per lot; and
3. Geotagged Photos

Please be informed that out of 37 CSC holders assessed and evaluated within the ISF project area at Barangay Tabionan, Gasan, Marinduque, sixteen (16) of them were already dead, ten (10) were verified alive or active, and eleven (11) are absent or residing outside of the province. The representatives of absent and deceased CSC holders have no formal documents or proof from the concerned holder to be recognized as their authorized representatives. They failed to inform the DENR Office regarding the transfer of their responsibilities to their next-of-kin or representative which is necessary for renewal of their tenurial instruments.

For information, record and reference.

IMELDA M. DIAZ

March 26, 2021

MEMORANDUM

FOR : The OIC, PENR Officer

THRU : The Chief, Technical Services Division

FROM : The CSC Composite Team

SUBJECT : **NARRATIVE REPORT ON THE PERFORMANCE EVALUATION OF CERTIFICATE OF STEWARDSHIP CONTRACTS (CSCs) HOLDERS WITHIN THE INTEGRATED SOCIAL FORESTRY (ISF) PROJECT AT BARANGAY TABIONAN, GASAN, MARINDUQUE.**

As a background, the Integrated Social Forestry Program (ISFP) was implemented pursuant to the Letter of Instruction No. 1260, dated of July 28, 1982 for equitable distribution of the forest bounty and for food security, sustainable development, management and protection of forestlands by involving forest occupants and by providing them security of tenure for a period of 25 years/renewable for another 25 years (depending on their performance) through the issuance of Certificate of Stewardship Contracts (CSC's) for the benefits of the present and future generations to come. It is an agreement entered into by and between the government and individuals/families actually occupying or tilling portions of the forestlands to uplift their socio-economic conditions of forest dependent community or peoples on the uplands.

In compliance with our target for the first quarter of CY 2021, the undersigned Compliance Monitoring and Evaluation/Assessment composite team, have conducted field evaluation/assessment of more or less Thirty-Seven (37) CSCs holders, particularly in sitios of Camanga and Mabato, Barangay Tabionan, Gasan, this province. The said composite team was organized since last year by virtue of PENRO Special-Order No. 2020-008 series of 2020.

Prior the field evaluation/assessment, the concerned staffs from the Monitoring and Enforcement Section (MES) and composite team members facilitated a dialogue/meeting on March 02, 2021 with concerned CSC holders with the presence of LGU Tabionan Officials. It is intended to figure out the numbers of available/active CSC holders and inactive/deceased holders thereat before conducting field evaluation/assessment of the subject ISF project area. Per levelling off during the meeting, the evaluation/assessment per CSC lot are accordingly scheduled.

That out of 37 CSC holders assessed and evaluated, sixteen (16) of them were already dead, ten (10) holders are verified alive or active, eleven (11) are absent or residing outside of the province and all CSC tenurial instrument. Most of the representative of deceased CSC holders had no formal documents or proof from the DENR to recognize as authorize representative of deceased and absent lessee.

However, according to CSC holder representatives, verified as their wife, husband, sons, daughters, nephews, grandsons and cousins, they are willing to continue cultivating said awarded lots or take over the responsibility of their deceased or absent relative CSC holders. One of the representative CSC holders (Mr. Sander Minay) was allegedly authorized by several absent CSC holders to manage and develop more or less Six (6) lots in addition to a lot transferred to him by his grandfather.

Some awarded lots are covering with patches of planted coconut palms vegetations, combined with some high value fruit-trees which were established/planted during the implementation of Upland Development Programs and the previous livelihood support projects activities under the ISF programs. Continuous planting of seasonal cash crops is commonly practiced in the ISF area as sources of their livelihood. The most common species of fruit trees found in their lots are citrus or calamansi, jackfruit, rambutan, lanzones and guyabano. Planted forest trees such as Narra, Cmelina, and Mahogany and naturally growing species of Anonang, Tangisang-bayawak, Ipil-ibil, Bonliw, Batino, Amugis and Maligango are thriving under the coconut grooves, along the banks of rivers creeks, top of slopes and gully. There is a portion of the CSC lot with mini rice field.

ISSUES AND CONCERNS:

Generally, the declining numbers of original ISF members beneficiaries at Barangay Tabonnan, was a result of being deceased and their pleasure to look for greener pasture outside of the province. Some of the CSC holders were already old or incapacitated to cultivate and improved their awarded lot, while others have no interested party or next of kin to take over their responsibilities. No orientation/training activities was done supposedly to update/enhance their awareness about the ISF program and strictly adhere to the terms and conditions of the subject CSC lease agreements.

RECOMMENDATIONS:

1. The CSC Lease Agreements issued to ISF participants are already expired, thus, it is necessary to renew their tenurial instruments so that their occupancy over their occupied lot will be legalized;
2. To organize and strengthen the People's Organizations to develop livelihood activities;
3. In view of incapacitated and absent CSC holders, they should officially inform the DENR about their designated authorized representative;

4. To conduct training seminars to update/enhance their awareness on protection and conservation of natural resources;
5. Prepare corresponding letters to CSC holders or their authorized representative regarding the renewal of their expired lease agreement;
