MR. ARNOLDO A. ABLAZA JR, CESO III

OIC CENRO CORON

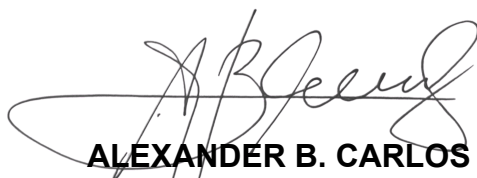

Brgy. Poblacion 5 Coron Palawan

Dear Sir,

This refers to our letter dated August 25, 2021 informing you that a group of illegal loggers have fenced the mountain side (virgin forested area) of Sitio Laguio making it appear they have rights over said area. Today reports from the field confirmed that chain saw activity has been going for several days in said area. This is a clear violation of PD 705 of the Revised Forestry Law specifically Illegal cutting of trees in a protected area. This requires your immediate action to arrest perpetrators and confiscate tools and implements used.

We strongly suggest that proper coordination with the PNP or military be made to arrest perpetrators and confiscate tools and implements used. According to information gathered there are look outs posted in different sites near the cutting area. Another factor to consider is that some "Lawin" , a group of locals hired by DENR to monitor illegal activities, are relatives of the illegal loggers. We have attached some pictures as proof of illegal cutting of decade old trees, The government has to send a strong message to illicit operators that DENR will not cease to implement the law. Should you need our assistance you can reach me at 0915 694 59 69.

Very truly yours,

ALEXANDER B. CARLOS
President

CC: Atty. Juan Miguel T. Cuna , Usec Field Operation
Mr. Marcial C. Amaro Jr CESO III ,FMB OIC
