RE: Philippine Cockatoo Conservation Program (PCCP) Presentation to RED4B

Dear Dir. Ferrer:

Warm greetings!

The Philippine Cockatoo Conservation Program (PCCP) is our pilot conservation program since 1998 and this is enabled by a MoA with the DENR-BMB. The PCCP is implemented within four project sites in Palawan, the stronghold of the Philippine Cockatoo globally.

We thank you for the attention you are giving towards our patrol reports and in other undertakings in particular for Rasa Island Wildlife Sanctuary pursuant to RA 7586 as amended by RA 11038 or the ENIPAS Law.

May we kindly request your precious time to meet us via zoom so we can officially introduce ourselves and present to you our programs and other projects implemented by the Katala Foundation Inc? We hope in this way we are able to inform you of our past, present and future plans for the PCCP and looking forward that DENR through your regional leadership would be part of these endeavors to jointly achieve our shared conservation goals. We are open from September 21 to 24, 2021 at your convenient time within these dates for this opportunity to be with you. I can be reached through my personal email at idlacerna@gmail.com or at kficacatua2016@gmail.com or at 0917-717-4479. We look forward hearing from you.

Thank you very much for our continued partnership.

Sincerely,

INDIRA DAYANG LACERNA-WIDMANN
Chief Operations Officer
