**A. Coordination within the Regional Statistical System**

This involves the identification of statistical needs, and harmonization of standards and putting up coordination mechanisms with other agencies and local government units.

You may add rows, if necessary, depending on the number of SDPAs accomplished by your agency.

**B. Data Collection / Production**

This covers techniques, standards, methodologies, and systems in the production, collection, compilation of data.

You may add rows, if necessary, depending on the number of SDPAs accomplished by your agency.
