Research Writing, Sampling Techniques and Statistical Analysis In-depth Seminar Workshop - October 11 to 15, 2021

Research writing has been an integral part of our daily life. Whether you are working in the public sector, private sector and academe, the research writing process is the same. In fact the whole research process is constant across the sector. In the research writing portion of this workshop, participants will learn how to structure a research paper, write a statement of the problem, write literatures/citation and many more. On the second part of research writing, participants will engage to a whole-day writeshop.

The third day of the workshop will deal with sampling Techniques, data collection and data preparation. On the last two days of workshop, participants will learn how to interpret data using JASP and JAMOWI (these are freewares).

Course Objectives:

- 1. Learn how to write and structure a research paper.***
- 2. Enable participants on identifying the right sampling techniques in accordance to the research problem and research design.***
- 3. Learn how to interpret statistical data using FREEWARES (JASP and JAMOWI).***
