MEMORANDUM

FOR : **The Director**
Knowledge and Information Systems Service

FROM : **The OIC Chief**
Statistics and Data Resource Management Division

SUBJECT : **CONDUCT OF DENR DISCOVERY WORKSHOP TO BE FACILITATED BY GEODATA SYSTEMS INC.**

In line with the increased appreciation of the ArcGIS Enterprise functionalities and the expansion of the scope of its utility, Geodata Systems Inc. (Geodata) will facilitate the crafting of a roadmap for the ArcGIS Enterprise implementation in DENR.

Based on the proposal of Geodata, the workshop will be entitled “DENR Discovery Workshop” and will tackle four aspects: Business Architecture, Information and Technology Architecture, IT Governance, and People. The presentations expected from DENR for each of these aspects should consider the current state of GIS-related workflows in the Central Office, the field offices, and the bureaus.

To maximize the two-day activity, a series of consultation meetings is proposed to be conducted prior to the Discovery Workshop. It will run from September 8-17, 2021 to be attended by the Regional Offices, bureaus and central office.

Enclosed are the memorandum for the Regional Executive Directors to notify them about the schedule for their respective regions and endorse the form sheets that they need to fill out prior to the consultation meetings. SDRMD is still finalizing the form sheets that will be used by the bureaus and central office and will submit it at a later date. Also enclosed are the status report for the workshop, proposed agenda and guide questions from Geodata for your ready reference.

For your consideration.

SUSAN B. VILLAR
