**NICKEL INITIATIVE TALKS AND WEBINARS SERIES (EPISODE 3)**

PROMOTING SUSTAINABLE DEVELOPMENT BY ADVANCING THE ROLE OF WOMEN IN MINING

**30 APRIL 2021 (FRIDAY)
10:00 AM - 11:30 AM
VIA ZOOM**

Dear Colleagues, Friends and Partners:

The Philippine Nickel Industry Association (PNIA) is pleased to invite you to the third episode of the Nickel Initiative Talks and Webinars Series, a program that seeks to promote dialogue and learning among nickel development players, stakeholders and experts through the sharing of information, insights and best practices. Through this forum, we hope to promote informed discussion on industry initiatives and enhance cooperation and collaboration between the industry and its stakeholders.

SESSION OVERVIEW

Title: Promoting Sustainable Development by Advancing the Role of Women in Mining

Date and Time: 30 April 2021, Friday, 10:00 AM to 11:30 AM

Topic Description: The participation of women in governance, in industries and in broader society has long been established as an imperative to promote sustainability, progress and long-term development. Within the mining industry, the role of women continues to gain traction in international discussions consistent with the industry's support to achieving the Sustainable Development Goals and promoting gender inclusion policies of nations. We now see more and more women actively participating in the advancement of the mining sector from the mining fields to the boardroom.

This webinar will look into the participation of women in mining, particularly in the nickel development sector, and how the industry and stakeholders can collectively work towards increasing women's participation and inclusion in mining.

Participation is **FREE** so we hope you can **REGISTER NOW** by clicking the link below to reserve your spot.
