Dear partners/colleagues,

As one of the most vulnerable countries to climate change, the Philippines recognizes the need for more proactive measures to make the vulnerable communities genuinely resilient in an approach that would also help attain the sustainable development goals. The Department of Environment and Natural Resources (DENR) for the past five years had embarked on capacity building activities focused on the integration of ecosystems-based adaptation (EbA) into its programs, projects and activities to ensure that ecosystems remain resilient and that ecological integrity amidst development and investment efforts are given primordial importance. Through the Climate Change Service, the DENR continues its commitment, advocacy and engagement in promoting EbA measures among its stakeholders.

In this regard, we are pleased to invite you to the **1st EbA Cluster Orientation Workshop on May 28, 2021 at 8am-4pm via Zoom**. The Orientation-Workshop seeks to orient communities under the priority climate vulnerable provinces on the concept of Ecosystem-based Adaptation (EbA). This will serve as an opportunity for the LGUs/communities under the priority climate vulnerable provinces to have updated and working knowledge on climate change adaptation guided by the EbA Mainstreaming Cycle and to be able to have an actual application of EbA into their programs and projects. We have attached the Concept Note and Provisional Program, for your reference, please.

Kindly fill out the Registration Form provided in the link: <https://forms.gle/4g1AEm4ZWospPbU78>. The Workshop shall be delivered using Zoom hence, please indicate your email address to get registered. Should you have clarifications on the event, kindly email us at lcsilva@denr.gov.ph and ccitsd@denr.gov.ph.

Thank you very much and we shall be looking forward to your confirmation.

Best regards,

Liz C. Silva
