Dear all,

Following the deliberation meeting of May 18th regarding Sulubaaï's application for a FlagT, we send you the attached file providing:

- a summary of Sulubaaï's presentation
- written answers to the questions stated during the meeting

As for now we are waiting for the map of the exact area applying for the FlagT that Sir Alfred Lopez (DENR Mimaropa) should provide as soon as possible. As discussed during the meeting this area should not include the mangroves nor the 40m strip from the high tide level, the area is thus expected to be included between 15,000 sqm and 18,000 sqm.

We remain at your disposal for any further information needed.

Sincerely yours,

Laure Thierry de Ville D'Avray (project manager)
Fred Tardieu (Sulubaaï's president)
