ISSUES/CONCERNS AND RECOMMENDATIONS

Issues/Concerns	Answers/Actions Taken/Recommendations
From NCIP CALABARZON: Is there a list of areas identified for NAPC beneficiaries?	The NTF will send the list based on PSA Listahanan 2020 of the 40 poorest provinces, 400 poorest cities/ municipalities, 4000 poorest barangays plus 882 BDP barangays to the desk officers for distribution to regional cluster members. This will serve as the guide in mapping the prioritization areas.
From BFAR: Can we be provided the list of communities who have completed the RCSP? This will help us to target the right communities for our PPAs	The National Task Force will provide the copy or list of Barangays covered by RCSP for 2020 and 2021. BFAR will give their personal contact details to EO 70 PMO
From BFAR: When can we receive the guidelines and mechanics for the conduct of Regional Planning?	The National Task Force is still in the process of finalizing the said document and for consultation with other agencies.
From BFAR and DAR: Only a few DILG Regions mentioned the interventions of BFAR and DAR in the implementation of SUCBEM.	This should be noted by the members of JRTFs as the accomplishment should highlight the collaboration and convergence in each region. All members of the clusters should participate and share their accomplishments in the implementation of SUCBEM programs and projects.
DOE Usec. Alexander Lopez: The accomplishments focus on conducted activities. What parameters to know the significance of these activities?	We need to identify the desired outcomes of these activities and determine whether these outcomes are attained or not.
