## **PARTICIPANT'S INFORMATION NOTE**

### **I. Rationale**

The Forest Management Bureau is mandated to provide technical guidance to the DENR Central and field offices in the effective protection, development, and conservation of forestlands and watersheds, and to recommend policies and programs towards the achievement of sustainable forest management, based on science and principles of good forest governance.

The Bureau has previously conducted *Forestry Fridays: A Forestry Webinar Series* in 2020 to (1) capacitate DENR Field Offices in various policies and guidelines, specifically those that are related to forestland and resources management and conservation, (2) document problems encountered in the implementation of policies, and (3) identify policy gaps and inputs necessary for formulating new guidelines or amending existing ones based on implementation issues, challenges and needs.

### **II. Objectives and Expected Output**

The proposed Forestry Webinar aims to guide the DENR field offices (Regional Offices, PENROs, and CENROs) on the recently approved forestry related policies and guidelines through orientation and discussion forum to improve their capacity on policy implementation, clarify provisions, and identify policy gaps and implementation issues, if necessary.

At the end of the learning event, the participants should be well-versed in the recently approved forestry related policies discussed and be able to apply their knowledge in the implementation of these policies. The FMB should also be able to identify policy gaps, implementation issues, amendments and/or clarifications to the recently approved guidelines, for common understanding of field implementers.

### **III. Approach and Methodology**

The online learning event will be held on ***July 16 & 23, 2021*** from 9:00 AM to 12:00NN ***via Zoom application.***
