Dear CTOC participants,

Greetings!

The World Wildlife Fund (WWF), is executing the Targeting Regional Investigations for Policing Opportunities and Development (TRIPOD) Project, a Bureau of International Narcotics and Law Enforcement Affairs (INL)-funded, with Freeland Foundation, a Thailand-based Non-Governmental Organization (NGO), as the primary holder of the project. This initiative is being supported by DENR-Biodiversity Management Bureau (BMB).

As part of the strategy to combat wildlife trafficking in the Philippines, the Project will conduct sub-national gap analysis and needs assessment activity which will serve as baseline information to produce a National Assessment Report (NAR). The NAR is a comprehensive report aligned with the International Consortium on Combating Wildlife Crime (ICWC) Analytic Toolkit for Combating Wildlife and Forest Crimes. For this purpose, an assessment workshop will be held with select government agencies relevant to the enforcement of wildlife and related laws. The final report including detailed findings and recommendations will be made available to participating government agencies and ICWC.

Pursuantly, may we would like to invite your office to a gap analysis and needs assessment workshop that will be held on **19-20 April 2022, from 8:30 AM-12NN via Zoom**.

As a preliminary step, please click the link: <https://bit.ly/GapAnalysisSurveyForm> to access the assessment survey form. The answers provided by the participant/s will be discussed and elaborated on during the workshop. The same will also be considered as baseline information for the Counter Transnational Organized Crime (CTOC) online training that will be held on June 20-24, 2022.

Please accomplish the survey form on or before **April 13, 2022**.

Your usual support in this matter is highly appreciated.

Sincerely,

TRIPOD Project
