FELIX BELTRAN IN SNAKE ISLAND NCMCR**

Forwarded is the memorandum dated March 31, 2022 of Marine Biologist II Genesis Z. Ustares regarding the above-mentioned subject.

Per report, the said signage was detached and was lost due to the waves, winds and high tide brought by Low Pressure Area (LPA) these past few weeks. The Snake Island Management Office personnel re-installed the signage within the area of Mr. Felix Beltran and cemented its footing to properly secure the signage and prevent from missing. The signage's measure was 6x4 ft made of aluminum cladding with reflectorize text and background.

This serves as Means of Verification (MoV) for Snake Island activities under maintenance, protection and enforcement activity for CY 2022.

In connection with the submitted report of the undersigned last January 19, 2022 re the installation signage "No Entry, Government Property" in the area of Mr. Felix Beltran, the said signage was detached and lost due to the waves, winds and high tide brought by Low Pressure Area (LPA) these past few weeks. With this, the SIMO staff: Messrs. Dionisio A. Mahilum Jr. and Vincent Arcaño, re-installed the signage within the area of Mr. Felix Beltran and cemented its footing to properly secure the signage and prevent from missing. The signage measures of 6x4ft made of aluminum cladding with reflectorize text and background.

The said installation was part of the verbal instruction of Atty. Jazmin Altea of Legal Section of PENRO re the wrecked structure of Mr. Felix Beltran in the northern part of Snake Island last January 19, 2022 to secure the area and to prevent Mr. Beltran from re-building his structure in the area. Attached is the photo documentation of the activity.

For your information and further instructions.
