PABLO CRUZ
CENRO- Roxas
Palawan

Subject: **Letter March 21, 2021 was not answered directly and satisfactorily**

1. I was sad and dissatisfied that my letter march 21,2021 was not directly answered and the recommendation of the forest ranger that investigated the incident last July 26,2021 was not followed rather you answered and I quoted "the inspecting and investigating forest officers had not caught on the act the violators and render the information as hearsay and prejudicial to the other party".

How could the rangers can catch in the act cause the incident of cutting trees was reported on May and June 2021 but the team was sent on July 2021?

2. Please review the compiled staff work that was submitted to CENRO and forwarded to PENRO on February 8,2022.
3. Attach are the pictures taken and submitted by forest ranger Santoza, and the report of forest Rangers Marquez and Maduro as submitted to MES Vitalano Maranan.

Let the advocacy of protection and prevention of destruction of the environment be observed.

I am hoping for a fair and balance answer to my complaint.

Justice should prevail.

Respectfully yours,

Marle A. Jaranilla
