March 15, 2022

ARNOLDO BLAZA JR.

CENRO Officer

DENR-CENRO CALAMIANES

Barangay 6, Coron, Palawan

Sir,

Greetings!

Brigada Eskwela 2022 was launched earlier than the usual schedule. This is to give ample time for the preparations of the expanded limited Face to Face Classes for the School Year 2022-2023. **School Facilities** and preparedness/ readiness will be assessed to approve the opening of classes in school. The school with the cooperation of PTA and SGC, is currently and continuously improving the physical facilities of the school together with the preparation of the necessary documents.

In connection with this, the *DEPED Memo No. 071, s. 2021* with the inclusion of School Safety Assessment Tool (SSAT) requires the School Clinic and Isolation Room as one of the niceties in physical facilities. The presence of clinic with isolation room is compulsory compliance and one of the COVID-19 response safety measures. We are in need for your assistance for the **GOOD LUMBERS** we need for the project "**Clinic for Learners: Kaligtasan Mo, Prayoridad Ko**". Attached herewith is the Program of Works of the project.

Optimistically anticipating for the grant of this requisition for the learning, safety and protection of the Coronian learners. Thank you for the support to the goals of the school. God bless!

Sincerely yours,

D. Ignacio
DESSIREE O. IGNACIO
PTA President

17 March 2022

ARNOLDO BLAZA JR.

CENR Officer

DENR-CENRO CALAMIANES

Barangay 6, Coron, Palawan

Sir,

Good day!

This is to justify the purpose of the request for the lumbers.

The Section 1.2, paragraphs 4 and 5 of the **Republic Act 9155** (Governance of Basic Education Act of 2001) provides the principles that guide the implementation of the act and application of its rules: The parents and the community shall be encouraged for active involvement in the education of the child. Your agency, **DENR-CENRO** is part of the *Public & Private Stakeholders* that play the important role with whom we share the "accountability" and responsibility of the school governance and school improvement planning.

In realizing the desired continuous improvement of the learners learning outcomes, the **PTA** envisions well-prepared and enjoyable school facilities for the limited face to face opening of classes. The *DEPED Memo No. 071, s. 2021* with the inclusion of School Safety Assessment Tool (SSAT) requires the School Clinic and Isolation Room as one of the niceties in physical facilities. The presence of clinic with isolation room is compulsory compliance and one of the COVID-19 response safety measures in managing the school operations during the limited face to face classes. We are in need for your assistance thru the providence of the **GOOD LUMBERS** for the "*Clinic for Learners: Kaligtasan Mo, Prayoridad Ko*". Attached herewith is the Program of Works of the project.

The development plan of putting up a clinic and isolation room has no fund coming from the School MOOE or Local Government Unit. PTA has no allocation for the project as well, for there are so many requirements that has to be complied for the school's opening of classes. **DENR-CENRO** is the only agency that can provide us legally the lumbers for the project.

The developments for the physical aspect of the school will not just protect and give assurance to the welfare of learners and teachers, it will make the management of the school operations at ease.

The above-mentioned **PTA** Project depend only on solicitation of funds and materials from the PTA Members and the Stakeholders. The requested donation of lumbers from your good office is badly needed for the projects to come out and succeed.

Optimistically anticipating for the grant of this appeal for the good, better learning, and safety of the Coronian learners. Thank you for the support to the goals of the school. God bless!
