*This is an email letter from my grandmother, **ALICIA VILLAROSA IBARRA**.*

Sir Madam,

Good day!

First of all, I would like to introduce myself, I'm a retired teacher of Maud II District. I'm asking help regards of what happened to our Land in Mamb Occidental Mindoro (Mamburao)

I would like to file a complaint regarding DENR Mamb Occidental Mindoro as to what happened to our land with questions on paper and documents.

Coura de Espejo was the head of DENR geodetic engineer Cesar Quebec. It's too late to have known about this land.

My father, **Hidoljo Villarosa**, died early when I was still in the womb of my mother. I sent a letter to PENRO, their answer was it's under the name of Petra Cruz. How is it possible that there's no deed of sale between Petra Cruz and my father. This area of 20 hectare, I was the one who got the tax declaration, nobody said that it was transferred to Petra Cruz. I do not know much about the rules of DENR. I went to Mindoro Occidental to find out what happened. Geodetic Mastauguihan said that there's still 4 hectares left. I applied for it, but Cesar Quebec stopped and asked me in an uncourteous way, shouting, so I was frightened. The next time I visited, they showed me an index card that said Petra Cruz was dismissed in 1976, but in PENRO, it's still in the name of Petra Cruz, 1989.

I asked them what happened and that you dismissed Petra without any valid reason, they were surprised and couldn't speak.

I can't concentrate everytime I remember that they did not give even a small portion of the land.

I sent a letter to the DENR MIMAROPA Enforcement Division. They had an investigation. They did not get any response as to why and what happened, no record at all. Jan 2022 they visited.

Do these things really happen in DENR provinces or remote areas? How can these things happen inside DENR premises?

He wanted justice for what these people had done. It was Lyn Agaho who conducted the investigation of the Enforcement division.

Hoping for your response and assistance. Thank you.

Alicia Villarosa Ibarra
