

MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 L&S Bldg., Roxas Blvd.
Ermita, Manila

THRU : The PENR Officer
DENR-PENRO Palawan
Santa Monica, Puerto Princesa City
Palawan

FROM : The CENR Officer
CENRO Calamianes Islands

SUBJECT : **REPORT ON LAWIN MONITORING AND PATROLLING
ACTIVITIES OF BPRMO WITHIN THE FOREST
CONSERVATION AREA (FCA) OF BPR FOR THE MONTH OF
MARCH 2022**

DOCUMENTS

ATTACHED : BPRMO Report on Lawin Accomplishment for March 2022

DATE : **APR 06 2022**

Respectfully forwarded is the report of the BPR Management Office for the month of March 2022 Lawin Monitoring and Patrolling Accomplishments. Based on the report, the BPRMO patrolled a total of 32.73 km or 109.1 % of their monthly target as per BRPMO's 1st Quarter Lawin Patrol Plan of 2022.

For the OIC Regional Executive Director's information and record.

MARK GLENN T. MANAGDAG
EMS II/In-charge, Office of the CENRO

MEMORANDUM

FOR : The CENR Officer
CENRO Calamianes Islands
Coron, Palawan

FROM : The Undersigned, BPR Management Office

SUBJECT : **REPORT ON LAWIN MONITORING AND PATROLLING
ACTIVITIES OF BPRMO WITHIN THE FOREST
CONSERVATION AREA (FCA) OF BPR FOR THE MONTH OF
MARCH 2022**

DOCUMENT
ATTACHED : BPRMO SMART-generated report;

DATE : APR 01, 2022

With the implementation of the Lawin Monitoring and Patrolling System, respectfully submitted is the detailed report of the Busuanga Pasture Reserve Management Office (BPRMO) on the results of the Lawin monitoring and patrolling conducted in the Municipalities of Coron and Busuanga, Palawan within the BPR area for the month of March 2022.

I. Findings and Result

Two (2) Patrol Teams were dispatched during the conduct of this activity within the Forest Conservation Area (FCA) of BPR situated in the Municipalities of Coron and Busuanga, Palawan. The target distance for month of March 2022 is 30 kilometers (km) based on the Lawin Patrol Plan for 1st Quarter of 2022. On the said month the BPRMO Patrol Teams were able to traverse an aggregate distance of 32.73 km or 109.1 % (Table 1).

Table 1. BPRMO LAWIN monitoring and patrolling accomplishment for Month 2022

Months	Target (km)	Accomplishment (km)	Difference (km)	Accomplishment (%)
March	30	32.73	2.73	109.1

**The accomplishment rate is computed based on the 30 kilometer target per CENRO/CA per month compared to the sum of the distance patrolled per CENRO/CA.*

Table 2 shows a total of 130 Forest Condition Counts (FCCs) recorded during the patrolling. Early Secondary Forest (ESF) appears to have the highest figure recorded for March 2022 with 69 counts or 53%, while Old Growth Forest has least recorded observation with 1 count or 0.8%. The remaining forest conditions such as: Open-Uncultivated (OUC), Open-Cultivated (OC), and Advance Secondary Forest (ASF) with corresponding total figures of 39 (30%), 12 (9%), and 9 (7%), respectively. Based on the SMART analysis, the total FC with good condition has a total count of 79 or 60.77% which includes OGF, ASF and ESF.

Table 2. Patrol Observation: Forest Condition Counts

Forest Condition											
OGF		ASF		ESF		OUC		OC		Total	
Count	%	Count	%	Count	%	Count	%	Count	%	Count	%
1	0.8	9	7	69	53	39	30	12	9	130	100

OGF-Old Growth Forest. ASF-Advance Secondary Forest. ESF-Early Secondary Forest. OUC-Open, Un-cultivated. OC-Open, Cultivated

With respect to the presence of natural regenerants, 83 FCCs or 64% of the total FCC were recorded with presence of natural regenerants while 47 FCCs or 36% with absence of natural regenerants. There was no recorded in dense natural regenerants, while twenty-eight (28) FCCs or 22% and fifty-five (55) or 42% are recorded as moderate and sparse natural regenerants, respectively (Table 3).

Table 3. Patrol Observation: Natural Regenerant Count

Regenerants											
Presence of Regenerant								No Regenerants		Total Forest Condition	
Dense		Moderate		Sparse		Total					
Count	%	Count	%	Count	%	Count	%	Count	%	Count	%
0	0	28	22	55	42	83	64	47	36	130	100

Table 4 shows the observed and recorded threats within the FCA of BPR. A total of 7 threats were observed and recorded during the Lawin Patrolling and this were accounted to slash and burn farming (kaingin), cutting of trees and huts or house and other infrastructure.

Table 4. Patrol Observation: Threat Count

Threats	No. of observation
Slash and Burn Farming (Kaingin)	1
Cutting of Trees	4
Hut or House and other Infrastructure	2
Total	7

As can be viewed from the map in Annex C, the threats observed/documented in the FCA during the month of March 2022 are found in Brgy. Decalachao & Brgy. Guadalupe, both in the Municipality of Coron, Palawan. The current threat index is computed as 0.12 threats per

kilometer (T/Km) in January 2022, up to 0.21 T/Km in the last recorded threat in the month of March 2021. On the other hand, there are no threats recorder in the month of February 2022.

II. Remarks and Recommendations

1. Frequency of the visibility of patrolling and LAWIN monitoring within the Forest Conservation Area of BPR is being intensified to include weekends, if necessary, in order to prevent and immediately address any possible threats within the forested areas of BPR;
2. Letter address to the Barangay with record of threats observed in every conduct of LAWIN patrolling and monitoring to inform and assists them if it requires urgent action;
3. Observed unlawful activities in the ground is being thoroughly investigated and documented and filing of appropriate criminal complaints against the offenders pursuant to Presidential Decree No. 705 and other environmental laws, if so warrant;
4. Conduct of seminar/IEC to every barangay recorded with high incidence of unlawful activities within the area covered by the BPR to provide awareness and educate the community on the importance of maintaining ecological and environmental balance in the locality and the benefits that could be derived from the forest and climate change mitigation; and
5. Conduct of rehabilitation activities such as tree-planting, enrichment planting and assisted natural regeneration to maintain and accelerate recovery of forest cover.

For the CENR Officer's information, record and further instruction/s, if any.

RICHARD JOHN P. GALAGATE

Summary Patrol Report

Region 04B - BPR

Number of days analyzed: 30

Apr 1, 2022 7:43 AM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

Overall accomplishment rate*

Level of Accomplishment

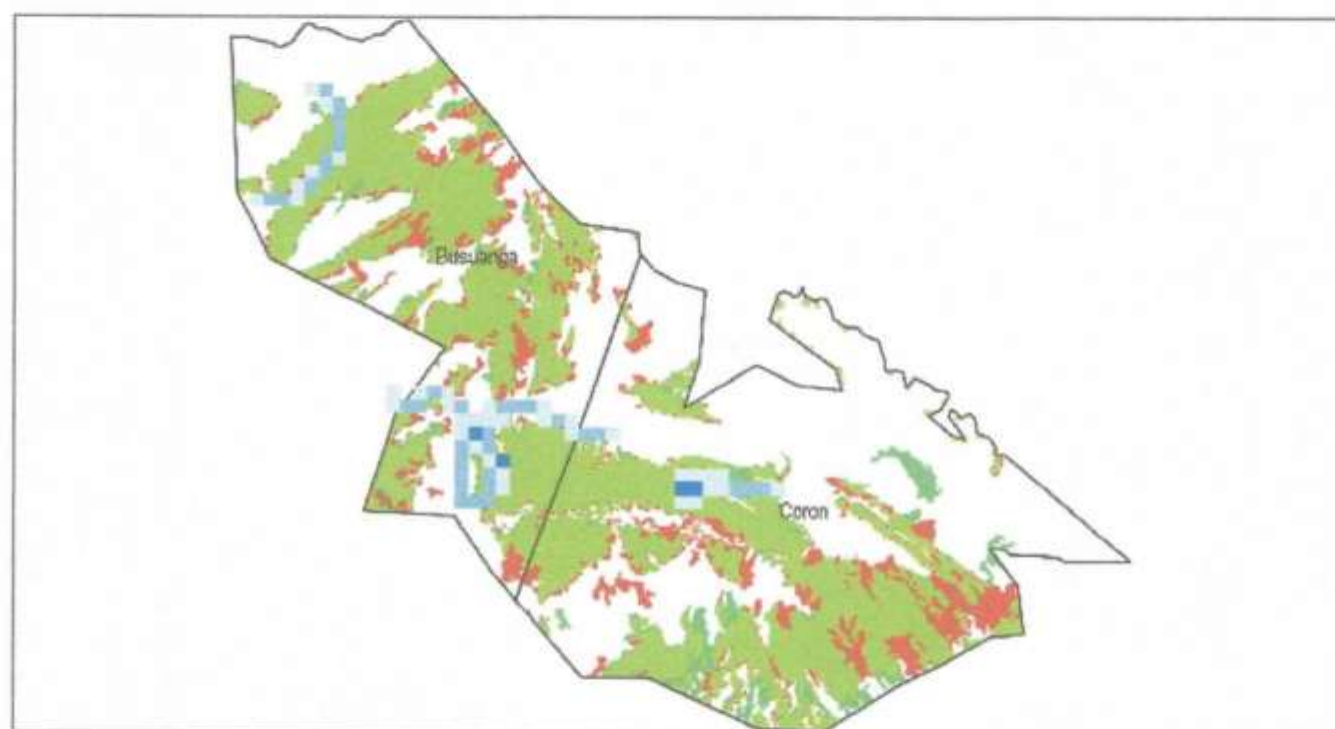

● Accomplishment
 ● Target

Accomplishment* for the period	Target* distance for the period
32.73	30.00

Accomplishment Rate:
 39.1%

*Target is computed based on 10km target per team of 4 DENR patrollers per month

Patrol coverage and intensity

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Dindo Sarmiento	26.25
Michael Acbang	26.25
Rommel Gacayan	26.25
Archie Agnes	19.14
Gricilito Lagao	19.14
Leonardo Puno	19.14
Jojie Montanez	14.90
Richard Galagate	10.82
Desiree Yvette Sandoval	10.07
Joy Kristel Degorio	7.77

Forest Protection Effectiveness Report

Region 04B - BPR

Number of days analyzed: 89

Apr 1, 2022 7:24 AM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

Trends of Observations per Patrol Kilometer in the Forest Conservation Area

Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

Trends of most common Threats

Summary Threat Report

Region 04B - BPR

Number of days analyzed: 30

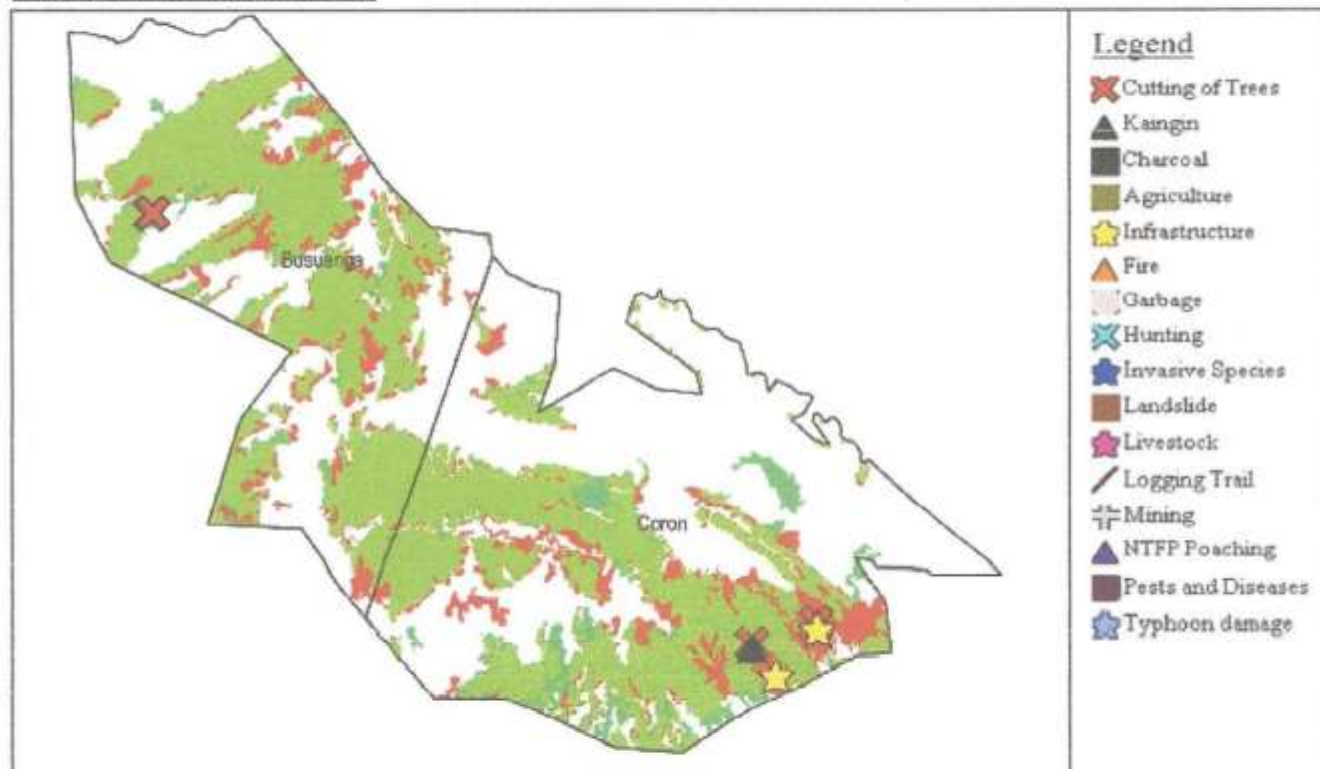

Apr 1, 2022 8:53 AM

This report presents information for the implementing units of DENR to effectively plan and carry out actions for addressing observed threats to the forest.

Threats observed and level of response required

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
Cutting of Trees	4	0	1	1
Hut or House and Other Infrastructure	2	0	0	2
Slash and Burn Farming (Kaingin)	1	0	0	1

Location of observed threats

Locations and urgency of responses needed

Locations of actions taken to address threats

Actions taken to address observed threats during patrols
