Forester III

Team Members

**FROM :** The OIC-Community Environment and  
Natural Resources Officer  
Coron, Palawan

**SUBJECT : FOLLOW UP ON THE ACTION TAKEN BY INVESTIGATING  
TEAM**

08/17/22  
This is in connection to the issues concerning the proposed New Public Market Project located at Sitio Dipulao, Barangay Poblacion VI, Coron, Palawan by the Municipal Government of Coron, Palawan.

It is known that the said project is within a titled property donated to the LGU Coron, the area was still covered by mangroves as per inventory conducted and satellite image from Google Earth (2014-2018) and it is prohibited to cut or earth ball mangroves. Our Office has already issued numerous order to stop their operations in 2018 and 2020 but still they continued the project.

In view of the foregoing, you are instructed to submit a written/explanation report on the action/s taken from the day of conduct of tree inventory up to this date.

For strict compliance.

  
**RODNEY G. VERIAN**
