Orientation on Mental Health

On 21 June 2018, the first mental health act legislation in the history of the Philippines was officially signed into law and was enacted under **Republic Act no. 11036** also known as the **"Mental Health Act"**. The Act provides a rights-based mental health bill and a comprehensive framework for the implementation of optimal mental healthcare in the Philippines. Despite its legislation, mental health remains a poorly-resourced sector of healthcare.

Through Mental Health Act and for the National Government to integrate, advocate mental health policies and programs for the consciousness or awareness of employees, the Human Resource Development Service-Health and Wellness Program is conducting an orientation on Mental Health via Zoom. By raising awareness of mental health, the Department is helping shape a better, more healthy workplace.

This webinar is open for all DENR Officials and employees
