**Meeting ID: 918 8649 9029**

**Passcode: 307013**

In response to the increasing challenges facing the country, the DENR is giving climate and disaster resilience priority along with low-carbon development. The DENR is working to improve the nation's resilience to natural catastrophes and impacts of climate change by providing training modules on community-based approach and ecosystem-based strategies to increase resiliency to climate change impacts and disaster risks. These approaches will also provide multiple socio-economic benefits regardless of disasters, including carbon storage and sequestration, biodiversity conservation and poverty alleviation. These modules are an undertaking that primarily aims to enhance skills and capacities on implementing Community- and Ecosystem-based Disaster Readiness and Risk Resiliency Management among DENR Bureaus/Agencies/ Services/Regional Offices/other relevant offices and local government units/communities.

We are appending herewith the Draft Modules. We would be pleased to receive your comments, if any, until December 13, 4 pm to [ccitsd@denr.gov.ph](mailto:ccitsd@denr.gov.ph).

We would also highly appreciate receiving confirmation of your participants through our email [ccitsd@denr.gov.ph](mailto:ccitsd@denr.gov.ph) or to Mr. Bryan B. Bongco at CCS telephone landline at 8928 1194 for confirmation and queries.

Your participation is hereby enjoined.
