MS LORMELYN E. CLAUDIO, CESO IV
Regional Executive Director
DENR-MIMAROPA Office
3rd flr., 1515 DENR by the Bay Bldg.
Roxas Boulevard, Bry. 668

Dear RED Claudio:

Warm greetings!

A Swiss engineer (also CC of this e-mail) who loves the Philippines is working to leave a legacy to his 6 children a world where boats consume renewable energy and can save 80% energy that they consume, through the aid of hydrofoil technology a link in reference to this is the following: https://www.nauticareport.it/dettnews/barche_elettriche/candela_ship_emissions_can_be_cut_by_975_by_switching_to_foiling_electric_vessels_says_swedish_study-16879-26864/

Further, he believes that most of the bancas in the Philippines can be replaced with environmentally sustainable boats. In relation to this, he would like to invite you to the advisory board of the venture he's about to start here in the Philippines. And in this light, he would like to request for an appointment with your good office preferably at this available dates: December 23 and 30, 2022.

The undersigned hopes that this request would merit your utmost response. Would be best to communicate with him on your personal email address.

Thank you and wishing you all the best!

Respectfully yours,

MS. REA PALMERA
El Nido, Palawan
