Meeting ID: 918 8649 9029

Passcode: 307013

In response to the increasing challenges facing Philippines, Asia and the Pacific, DENR is giving climate and disaster resilience priority along with low-carbon development. DENR is working to improve the nation's resilience to natural catastrophes and impacts of climate change by providing training modules on community-based approach and ecosystem-based strategies to increase resiliency to climate change impacts and disaster risks. These approaches will also provide multiple socio-economic benefits regardless of disasters, including carbon storage and sequestration, biodiversity conservation and poverty alleviation. These modules are an undertaking that primarily aims to enhance skills and capacities on implementing Community- and Ecosystem-based Disaster Readiness and Risk Resiliency Management among DENR Bureaus/regional offices/other relevant offices and local government units/communities

We would highly appreciate to kindly confirm through our email ccitsd@denr.gov.ph or to Mr. Bryan B. Bongco at CCS telephone landline at 8928 1194 for confirmation and queries. We have likewise enclosed the course content for your reference.

Your participation is hereby enjoined.

ELENIDA DR. BASUG

PLEASE SEND YOUR CONFIRMATION TO CCITSD@DENR.GOV.PH
