Lormelyn E. Claudio  
Regional Executive Director  
DENR-4B  
[mimaroparegion@denr.gov.ph](mailto:mimaroparegion@denr.gov.ph)

Dear RED Claudio:

Greetings in conservation! The wildlife seizure data provided by various DENR regional offices led to the successful publication of a study entitled "Wildlife from forests to cages: an analysis of wildlife seizures in the Philippines (PDF is available at [https://www.researchgate.net/publication/353353586\\_Wildlife\\_from\\_Forests\\_to\\_Cages\\_An\\_Analysis\\_of\\_Wildlife\\_Seizures\\_in\\_the\\_Philippines](https://www.researchgate.net/publication/353353586_Wildlife_from_Forests_to_Cages_An_Analysis_of_Wildlife_Seizures_in_the_Philippines)).

In our continued efforts to better understand wildlife trade in the country, I continue to collate seizure data from various regional DENR offices and law enforcement agencies. In this regard, I would like to request the wildlife seizure data from 2020-2021.

The data may be sent via email to [emersonsy@gmail.com](mailto:emersonsy@gmail.com). I look forward to your favorable response and more power to the DENR!

Best regards,

Emerson Y. Sy
