Next steps:

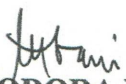

1. Hiring of service for masonry works and labor to properly demolish the dive house and comfort room, and to save salvageable materials from it.
2. Assess the main building, generator house, kitchen and comfort room of big shed on what possible actions and repairs to be done to preserve and to prevent further damages. Preparation of Program of Works for immediate repairs upon assessment.
3. Preparation of Program of Works for the proposed new building for Snake Island in compliance with the recommendation from Geotechnical Investigation Report conducted by VS Adriano Civil Engineering Consultancy Services.

Attached is the photo documentation of the activity.
