The Staff of the Regulation and Permitting Section (RPS) of this Office is experiencing voluminous tasks on the processing, issuance, and approval of survey authority, survey plan, and Public Land Applications (PLAs) in the municipality of Taytay, Palawan. The tasks include the careful interview of the applicants and diligent ocular inspection over the lands applied either for Survey Authority or patent.

This jurisdiction is given an initial target of Twenty-seven (27) each for Residential and Agricultural Patents including the continuation of the backlog target in patent for the years 2020 and 2021. Considering that the RPS has only (1) Land Management Inspector, one (1) Special Investigator, and one (1) Engineer which designated also as Land Investigation Officer to carefully attend in the processing of patent which has a timetable, workforce to the activity is now an issue.

In view of the aforementioned circumstances, respectfully request that the designation of Forester II Donna C. Tabernilla and Forest Technician II Precy M. Obrique as Deputy Public Land Inspector with Regional Special Orders No. 216 and 292, Series of 2021 that was lasted until December 21, 2021, be issued anew as soon as possible time.

For information, consideration, and approval.
