Dear Ma'am/Sir,

I am pleased to be applying for the position Engineer II (Geodetic Engineer) within Provincial Environmental and Natural Resources Puerto Princesa, Palawan. I am certain that my strengths make me an excellent fit for the role and I am confident that it would be a great opportunity for me to further grow both personally and professionally.

My career history includes three years of working as a Geodetic Engineer with strong knowledge in field and office land surveying work including construction surveying, land measurement, land partition, topographic work and field work for as built drawing.
Furthermore, I:

- Analyze control or survey data to ensure adherence to project specifications or land survey standards.

- Analyze operational data to evaluate operation, processes, or products.

- Conduct surveys to determine exact positions, measurement of points, elevations, lines, areas, volumes, contours, or other features of land surfaces.

- Inspected project sites to monitor progress and adherence to design specifications and safety protocols.

- Visited project sites during construction to monitor progress and consult with contractors and on-site engineers.

Throughout the years, I have proved that I'm a great team player with a data-driven approach and the important ability to think critically and solve complex problems. Please see the attached file for further details about my skills, experience and qualifications. Thank you for your time and for considering my application.

Sincerely,

Carlo G. Pascual
