## REMARKS:

No remarkable distortion in perception, reality testing is intact, no glaring signs of thought disorder manifested. No florid signs of anxiety nor depression noted at the time of testing.

IQ test result falls within the classification of "Very Superior" general mental capability with specific scores of "Superior" along Linguistic ability and "Very Superior" along Quantitative ability.

Personality test result bespeaks of a more or less balanced personality make-up with tendency to be restrained when presenting self to others. Projective test result suggests adequate functioning with fair to good adjustment. Emotional disposition appeared fairly stable, with good self-concept, and with fairly adequate coping ability. Met with challenging situations, he tries to keep an optimistic perspective in undertaking such and seeks out solutions to problems however showed tendency to be susceptible to feelings of inhibition when beset with frustrating events. Impulse control is generally intact; aggressive tendencies can be contained at the absence of stressors.

Socially, he appeared to be adjustable to social cues, fairly relatable with peers, with generally intact familial relations. At work, he executes tasks with adherence to procedures, could show collaborative terms with others when prompted, shows due courtesy towards superiors.

So far, he seems to have positive outlook towards his future.
