MEMORANDUM

FOR : The Community Environment and
Natural Resources Officer
Coron, Palawan

FROM : Nikki E. Ripalda
FT I/Information Officer

SUBJECT : **SUBMISSION OF ACTIVITY REPORT ON THE CONDUCTED
SIMULTANEOUS TREE PLANTING BY CENRO-CORON,
PALAWAN**

To kick off the celebration of Philippine Environment Month by virtue of Presidential Proclamation No. 237, the DENR organized a simultaneous tree-planting activity on June 8, 2022 to give time and effort towards the protection, enhancement and development of the country's environment.

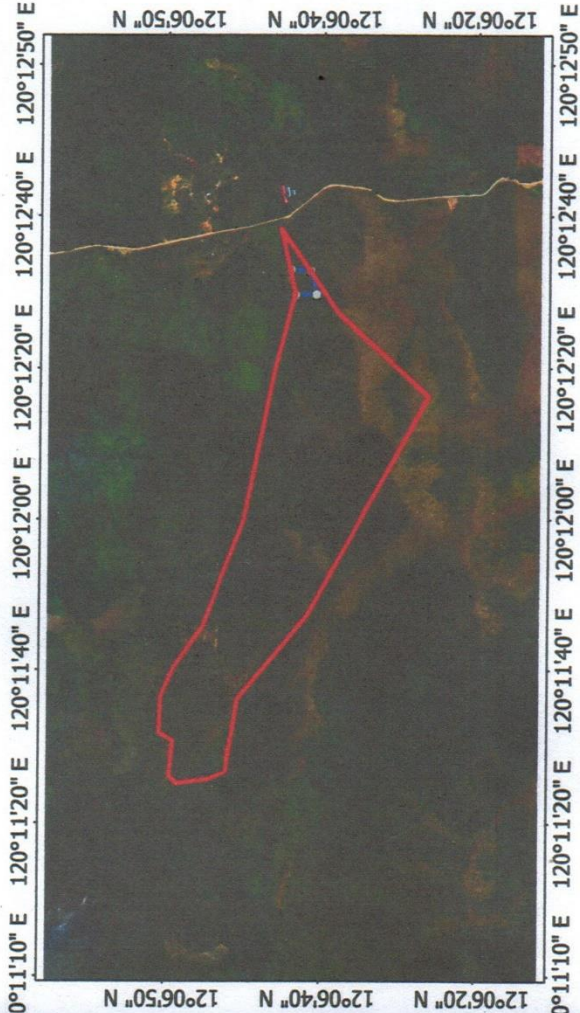

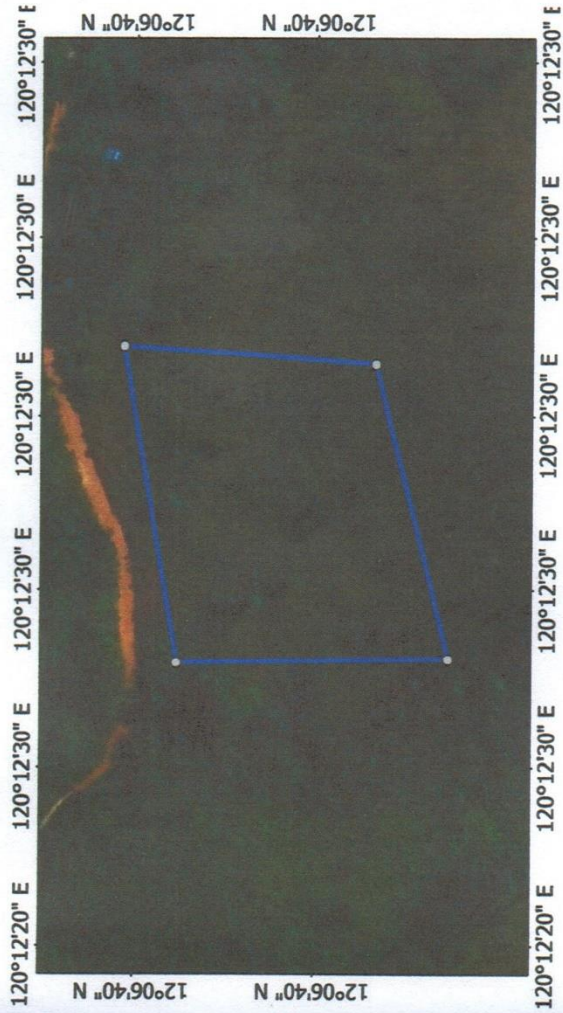

The CENRO-Coron together with the invited participants from PNP Maritime, PCG, Palawan Council for Sustainable Development (PCSDS), Philippine Air Force Reservist, Navy Reservist, Calamian Island Power Corporation (CIPC), DSWD 4P's, FMB- BPRMO, Alpha Kappa Rho (AKR), PO-CWBA AMPC, Grand Isla Calamianes Eagle, Hotel and Resort (Scotland Corporation), Academe, BLGU of San Nicolas, representatives from LGU-Coron and volunteers from the community have planted 1000 seedlings of Narra (*Pterocarpus indicus*) seedlings.

Forester III Ferdinand D. Gatchalian, formally opened the activity by welcoming the participants with a short message, he talked about the importance of such efforts in the conservation and protection of the environment in relation with this year's theme "Aksyon Para sa Natatanging Mundo". The activity was facilitated by NGP Coordinator, Forester Roy D. Pascual with his assistant Forester Mary Ann B. Valones. The former thanked and acknowledged the local community for their continuous support and enthusiasm towards the DENR's programs and activities. Before planting, the participants were reminded to dispose properly the polyethylene bags used for the seedlings which is a common misconduct during such activities.

The identified planting area for the activity is within the graduated NGP site with unique code of 13-175309-0155-0065 and has a total area of 0.6 hectares. *Pterocarpus indicus* seedling is the commodity required to be planted as assessed by the Regional Office on 2013's site inspection. It is widely distributed across the country with a limited potential to invade undisturbed native plant communities. In this activity, the planted seedlings were donated by the Scotland Corporation and People's Organization (CWBA-AMPC).

For information and record.
