Subject: REQUEST FOR GEOGRAPHICAL BOUNDARIES (REGIONAL, PROVINCIAL, MUNICIPAL, BARANGAY)

June 9, 2022

ATTY. EMELYNE V. TALABIS

Acting Director

Land Management Bureau

Department of Environment and Natural Resources

880 F.R. Estuar Building Quezon Ave. Brgy. Paligsahan, Quezon City

Dear Dir. Talabis:

Greetings from the Philippine Coconut Authority (PCA)!

PCA, being the sole agency mandated by the Philippine Government to develop and protect the coconut industry, is pursuing its efforts in providing its stakeholders with valuable information and technology. This is in line with the enactment of RA 11524 - An Act Creating the Coconut Farmers and Industry Trust Fund, providing for its management and utilization, reconstituting for the Purpose the Philippine Coconut Authority Board, and for other purposes, and the implementation of the Coconut Farmers and Industry Development Plan (CFIDP).

We are in the process of updating our coconut field assessment protocols as well as generating enhanced Regional Coconut Suitability Maps up to barangay level. The previous 2001 coconut suitability maps were based only on limited factors (Provincial level map based on climate types and altitude). As we are now moving towards Digital Agriculture, we aim to generate georeferenced maps based on multiple essential factors: Climate, Weather, Soil, Topography and other essential data. The

output data and maps must be geographically delineated – Regional, Provincial, Municipal, up to Barangay level.

In this regard, the Land Management Bureau (LMB), being the primary government agency responsible for the conservation, management, development, and proper use of the country's environment and natural resources, we are requesting your good office to provide us with the Geographically-referenced Boundaries in GIS Vector file – Regional, Provincial, Municipal up to Barangay level. Further, the National Mapping and Resource Information Authority (NAMRIA), mentioned that LMB is the designated office to handle and manage the geographical boundaries of the country.

We will be coordinating with your office through Mr. Ramon L. Rivera, Acting Deputy Administrator for PCA Research and Development. His contact details are as follows: Email: da.rdb@pca.gov.ph; Mobile No. 09177223049; Landline: 9284501 to 09 local 502.

We are hoping for your favorable response at the soonest possible time.

Very truly yours,

[Original Signed]

BENJAMIN R. MADRIGAL, JR.

Administrator
