To whom it may concern;

Good day!

I am Ederlinda L. Montoya 66 years old. Residing in Diliman, Quezon City. My home province is Romblon. I have a portion of land in Barangay Pato-o and is already sub-divided last January 2022 with my four siblings.

I would like to ask help in your good office about the quarrying of one of my brothers near the river. I requested him through chat to stop it, but he resisted. He then insulted us and told us that we couldn't do anything nor the DENR Odiongan branch.

My cousin, Jessie Jomadio, already sent a complaint about my brother's quarrying. I brought up this request and complain in your good office believing you can help up in this matter. I include some pictures taken for evidence of the damages my brother's quarrying has made. (Please scroll down to see the evidence)

Thank you so much! Looking forward for the action of your office.

Please inform me if you have received this e-mail.
