**Subject: Invitation to attend to an Online Workshop for Data Protection Officers Accountability, Compliance and Ethics (DPO ACE) Certification Program**

Dear Sir/Madam,

Greetings!

Yisrael Solutions and Training Center Inc. will hold its online classes for the Data Protection Officers Accountability, Compliance and Ethics (DPO ACE) Certification Program Level 1 on the training schedules given below. It is specifically designed for Presidents, CEOs, CIOs, Data Protection Officers (DPO), privacy professionals or those who want to start a career in Data Privacy and Protection. All of the above -mentioned professionals are invited to attend.

The NPC DPO ACE Program, in partnership with accredited Institutional Privacy Trainers, aims to establish a skills benchmark for DPO to address the high demand for adequate capacity-building mechanisms for aspiring privacy professionals in the Philippines

With the initial success of the DPO Level 1 Certification, the PHIL-DPO Program expands the scope and breadth of the DPO ACE by accrediting qualified trainers who are able to educate the public on key concepts involving the Data Privacy Act of 2012, its Implementing Rules and Regulations, and other issuances of the NPC.

The National Privacy Commission (NPC) accredited ten (10) institutional privacy trainers to develop more data privacy experts and nurture a culture of privacy across the country. Yisrael Solutions and Training Center Inc is accredited by the National Privacy Commission (NPC) as an Institutional Privacy Trainer. As an accredited trainer of the Training the Trainers Program (T3) of the NPC, we will demonstrate our capacity, expertise, qualifications, and dedication to educate the public on key concepts and accurate interpretations of the DPA, its implementing rules and regulations, and other NPC issuances.

With the T3 Program in place, Data Protection Officer (DPO)-trainers will be more equipped to fulfill their duties of enabling personal information controllers and processors to be DPA-compliant, and ensuring that privacy risks are mitigated in all their data processing activities. This will help Philippine companies, especially sectors that rely on cross-border data mechanisms, to be competitive compared to its peers in Europe and other jurisdictions that take data protection seriously.

Through this program, participants, no matter where they are, will have quality training services from NPCs T3 partners. There will be no shortage of opportunities to learn more about the Data Privacy Act (DPA) and how these learnings can be applied to operational practices.

In addition. Our NPC accredited trainer, data privacy managers, data privacy experts will not only give you an in-depth knowledge or an extensive discussion on RA 10173 , the Data Privacy Act of 2012 but also discuss on the Accountability, Compliance and Ethics for DPO as well as the role of Data Privacy Professional, Philippine Privacy Laws, Managing Third Party Risk and how to operationalize data subject rights.

By the end of the course, all attendees are eligible to take the DPO Certification Program. A certificate of Data Protection Officer (DPO) Novice level will be awarded to the attendees who will pass the certification assessment test for the DPO Ace Level 1 exam. An NPC DPO ACE Certificate will be given to those who will pass on the NPC Data Protection Officer Accountability, Compliance and Ethics (DPO ACE) Level-1 exam.
