Subject: SUBMISSION OF PUBLIC SCOPING REPORT WITH REQUEST FOR TECHNICAL SCOPING

Project Title: Application for Environmental Compliance Certificate (ECC) for Busuanga River Dredging Project

Project Code: 2022-ENVI-05

Dear Director Salino,

We respectfully submit the Public Scoping Report for the **application of Environmental Compliance Certificate (ECC)** for Busuanga River Dredging Project located at the municipalities of Rizal and San Jose Occidental Mindoro.

Attached to this are the following:

1. *Project Fact Sheet*
2. *Main text of Public Scoping Report*
3. *Photo Documentations*
4. *Attendance Sheets during the conduct of FGD/KII with stakeholders*
5. *Receiving copies of Letter to stakeholders in view of the conduct of FGD/KIIs*
6. *Copies of emails with Letter Request sent to other stakeholders in view of the conduct of FGD/KII*
7. *Copy of sample FGD/KII Questionnaire.*

In line with this, may we **request to have the Technical Scoping on June 20, 2022 at 1:00 PM at your Office.** We hope to receive your confirmation on the date and time stated or if there is another schedule more convenient for you.

Should you have further requirements or clarifications, you may contact our Consultant/Representatives Engr. Legilyn Concepcion de Asis Teodoro or Engr. Catherine C. Cena of EIGEL Management Consulting at 09778141208 or 09368591600 or email at eigelmntconsulting@gmail.com.

Thank you very much and more power.

Respectfully yours,

DAVID DELA CRUZ
President

A. PROJECT FACT SHEET

Project Name:	Busuanga River Dredging Project																																																									
Project Location:	The Project area is located in the southern part of Mindoro Occidental which is geographically situated between 12°25' N and 120°59' E. It is bounded in the north by the municipality of Calintaan in Occidental Mindoro; to the east by the municipalities of Bulalacao and Mansalay in Oriental Mindoro; to the south by the municipality of Magsaysay in Occidental Mindoro; and to the west by the Mindoro Strait. The area is bounded by the following geographic coordinates: <table><tr><th>Corner No.</th><th>Latitude</th><th>Longitude</th></tr><tr><td>1</td><td>N12° 24' 04.50"</td><td>E120° 58' 14.40"</td></tr><tr><td>2</td><td>N12° 25' 14.11"</td><td>E120° 59' 02.71"</td></tr><tr><td>3</td><td>N12° 25' 35.58"</td><td>E120° 59' 29.20"</td></tr><tr><td>4</td><td>N12° 25' 49.83"</td><td>E120° 59' 26.62"</td></tr><tr><td>5</td><td>N12° 26' 01.32"</td><td>E120° 59' 37.91"</td></tr><tr><td>6</td><td>N12° 26' 05.27"</td><td>E121° 00' 03.28"</td></tr><tr><td>7</td><td>N12° 26' 10.50"</td><td>E121° 00' 12.21"</td></tr><tr><td>8</td><td>N12° 26' 28.06"</td><td>E121° 00' 47.31"</td></tr><tr><td>9</td><td>N12° 26' 35.56"</td><td>E121° 01' 17.54"</td></tr><tr><td>10</td><td>N12° 27' 01.28"</td><td>E121° 01' 47.94"</td></tr><tr><td>11</td><td>N12° 27' 14.07"</td><td>E121° 01' 53.72"</td></tr><tr><td>12</td><td>N12° 27' 30.70"</td><td>E121° 01' 44.01"</td></tr><tr><td>13</td><td>N12° 27' 31.43"</td><td>E121° 01' 25.22"</td></tr><tr><td>14</td><td>N12° 27' 22.83"</td><td>E121° 01' 20.61"</td></tr><tr><td>15</td><td>N12° 26' 56.74"</td><td>E121° 00' 34.71"</td></tr><tr><td>16</td><td>N12° 26' 51.06"</td><td>E121° 00' 11.72"</td></tr><tr><td>17</td><td>N12° 26' 34.37"</td><td>E120° 59' 47.25"</td></tr><tr><td>18</td><td>N12° 26' 24.75"</td><td>E120° 58' 46.00"</td></tr></table>	Corner No.	Latitude	Longitude	1	N12° 24' 04.50"	E120° 58' 14.40"	2	N12° 25' 14.11"	E120° 59' 02.71"	3	N12° 25' 35.58"	E120° 59' 29.20"	4	N12° 25' 49.83"	E120° 59' 26.62"	5	N12° 26' 01.32"	E120° 59' 37.91"	6	N12° 26' 05.27"	E121° 00' 03.28"	7	N12° 26' 10.50"	E121° 00' 12.21"	8	N12° 26' 28.06"	E121° 00' 47.31"	9	N12° 26' 35.56"	E121° 01' 17.54"	10	N12° 27' 01.28"	E121° 01' 47.94"	11	N12° 27' 14.07"	E121° 01' 53.72"	12	N12° 27' 30.70"	E121° 01' 44.01"	13	N12° 27' 31.43"	E121° 01' 25.22"	14	N12° 27' 22.83"	E121° 01' 20.61"	15	N12° 26' 56.74"	E121° 00' 34.71"	16	N12° 26' 51.06"	E121° 00' 11.72"	17	N12° 26' 34.37"	E120° 59' 47.25"	18	N12° 26' 24.75"	E120° 58' 46.00"

Proponent Name:	ROYAL CROWN TARLAC 3G & PARTNERS				
Proponent Address:	12-1C 12 Flr, EGI Rufino Towers, Buendia Ave., corner Taft ave., Pasay City, Philippines				
Authorized Representative, Designation and Contact Details	Mr. David Dela Cruz <i>President</i> Mobile Number: 09178685858				
EIA Preparer Representatives Designation Address Contact Details	Engr. Legilyn Concepcion de Asis Project Manager EIGEL Management Consulting Engr. Cathy C. Cena Project Admin Officer EIGEL Management Consulting Head Office: 2 nd Floor La Paloma Building, 223 Mayon Street Sta. Mesa Heights Quezon City Site Office: No. 35 Rizal Street, Centro Northeast, Solana, Cagayan Mobile Number: 0977 814 1208				
Project Components:	The dredging of Busuanga River is composed of four major components along with monitoring component. These components include: • Mobilization including setting of site office/ staging area; • Dredging; • Dredged material dewatering and handling; • Transport of dredged material to designated receiver; and • Demobilization and Site restoration of staging area. <i>Mobilization which necessary include site preparatory activities include the following:</i>				

- Clearing and fencing of the staging area;
- Parts and supplies;
- Delivery of supplies and spare parts;
- Construction of temporary docking facility for the dredger;
- Launch of the dredger into the project site

Royal Crown will provide all labor and equipment costs necessary to move personnel, equipment, supplies including other expenses and incidentals to and from the project site, establish its field office and other facilities necessary for the work, obtain bonds, required insurance and other pre construction expenses necessary for the smooth implementation of the project.

Further, the dredger equipment shall be subject to inspection by the DPWH prior to actual dredging activities to ensure that it is satisfactory operating condition and capable of efficiently performing the scale or scope of the proposed dredging activities.

Dredging Operations

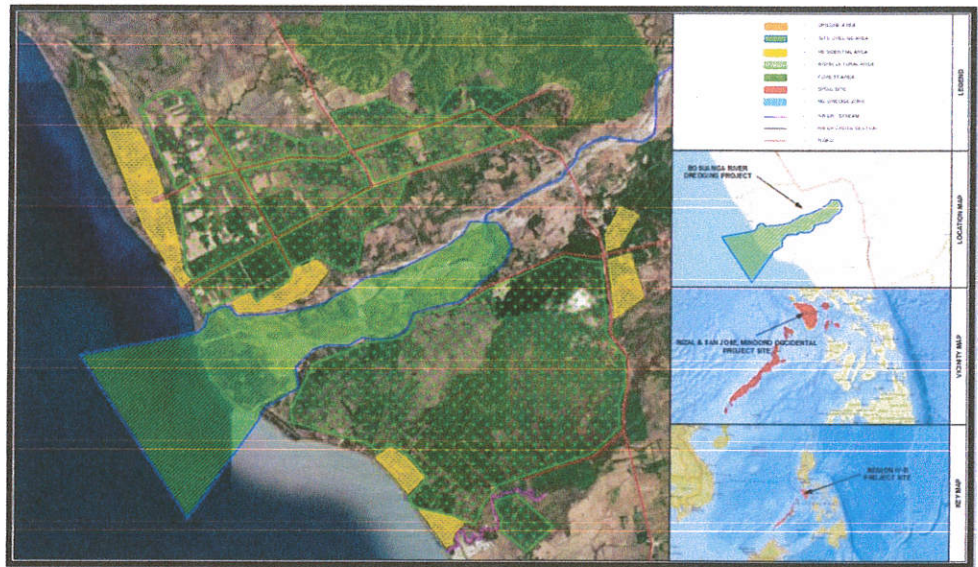

The Cutter Suction Dredger will be used to remove the alluvial materials from the riverbed. The dredger is equipped with a rotating cutter apparatus surrounding the intake end of the suction pipe, which allows it to dig and pump all types of alluvial materials and compacted deposits. The dredging activities will strictly follow the detailed engineering design plans for the dredging project duly approved by the DPWH Region 4B and will start from downstream and progress towards upstream. There is no spoil area required under the project as 100% of the dredge material will be transported by a belt conveyor to the dump ship and transported to the cargo ship at the sea.

	The Dredger will use cutter suction head with a rated capacity of 2,500 cubic meter per hour mounted on a ladder capable of reaching the desired depth within the sweeping area. The dredge discharge will be conveyed through High Density Polyethylene pipes to the mother vessel. Where floating discharged pipelines may impair navigability of the channel, the pipes may be submerged and at no time will the depth and width of the channel be reduced. Where possibility exists for small boats or skiffs to cross over the submerged pipeline, the area should be marked with orange buoys and sign stating "DANGER, SUBMERGED PIPELINE" every 30 meters through the length of the submerged pipeline. During the entire project duration, progress will be monitored through bathymetric surveys while environmental impact and water quality will be monitored through water sampling at various locations of the project site. <i>Demobilization and Project Close-Out</i> Demobilization includes project close-out and required submittals (e.g. as built plans, etc.); removal of all construction equipment, plant and excess materials in the construction site; clean-up of construction site staging area and disposal of hazardous waste in accordance with EMB guidelines at the completion of work.
Project Size and Project Area:	The dredging plan is divided into two sections. Section 1 starts at station 0+000, 12°25'39.33" N, 120°57'55.90" E, and ends at station 9+000, 12°27'18.71" N, 121°01'23.78" E. Section 2 starts at station 9+050, 12°24'52.39" N, 120°58'35.33" E, and ends at station 12+400, 12°26'3.42" N, 120°59'19.64" E. With a total of 12.4 kilometers in length. Beginning Sta. 0+000, End Sta. 12+400 Volume: 18,703,066.07 cu. m.

Royal Crown Tarlac 3G & Partners

Environmental Compliance Certificate (ECC)

The estimated extraction rate on a ten-hour operation is 25,000 cubic meters.

Site location map of Busuanga River

Project Cost	Php 2,473,123,527.00
Expected Operations Period	9.35 Years

MAY 16, 2022			
1	LGU BARANGAY ADELA, RIZAL OCCIDENTAL MINDORO	APPROVED	1. They agree on the dredging project provided the following measures are considered prior and during the dredging: -construction of break water/flood control/dikes; it was noted that Barangays San Antonio, San Pedro, Pitogo - the upper barangays have these flood control measures. -The Proponent should consider the design of the depth of dredging activity so that the "salt" water from Mindoro Strait will not flow over the fresh water of the Busuanga River. 2. Historical accounts: that in 2018 - the barangay was flooded; hanggang leeg, for 2 days, -a tsunami warning is posted in the barangay near the barangay hall;

2	MUNICIPAL DISASTER RISK REDUCTION AND MANAGEMENT OFFICE, RIZAL OCCIDENTAL MINDORO	APPROVED	-Ms. Analisa Guillardede agrees to the conduct of river dredging as she sees that it is a big solution to the perennial flooding in the municipality. -However, Ms. Analisa suggests the construction of gabions along the waterway particularly in Barangay Adela. -Ms. Analisa provided the Risk Profile of the municipality and the shapefiles of the hazard maps.
3	OFFICE OF THE MAYOR, RIZAL OCCIDENTAL MINDORO	APPROVED	-The Mayor approves to the conduct of dredging in the Busuanga River but he gave emphasis that MGB and EMB should strictly quality the proponent , that is it should undergo the proper evaluation. -He mentioned about the existing dredgers - West Island and Bluemax; that there are information of some irregularities in the project implementation. The Mayor said that the regulating agency should provide them a monitoring and evaluation checklist which they can use especially in the renewal of business license/permit. -The meeting was participated by MPDC Randy Ramos.
4	MUNICIPAL PLANNING AND DEVELOPMENT OFFICE, RIZAL OCCIDENTAL MINDORO	APPROVED	Mr. Randy Ramos who earlier joined the meeting with the municipal mayor reiterated that his Office agrees to the conduct of dredging along the Busuanga River. However, he advised that flood control measures should be constructed first along the low-lying barangays.

S/N	KEY STAKEHOLDERS/ RELEVANT INTERESTED PARTIES	APPROVED/DISAPPROVED THE BUSUANGA RIVER DREDGING PROJECT	KEY MINUTES/COMMENTS/REMARKS
			-Mr. Ramos provided a link to access CLUP, CDP, LCCAP, DRRM Plan; he also provided hard copy of the CLUP
5	NATIONAL IRRIGATION SYSTEM- INSTITUTIONAL DEVELOPMENT UNIT	APPROVED	- Mr. Edwin V. Arevalo, Section Chief of the Institutional Development Office Unit, National Irrigation Administration Occidental Mindoro appreciated that their Office is consulted regarding dredging in the Busuanga River. -Mr. Arevalo agrees to the dredging of the Busuanga River as it is already heavily silted and if this is not acted upon may have a direct impact to the water intakes to the several irrigation systems along the river. NIA operates irrigation systems and several CIS along the river. Number of hectares -Mr. Arevalo showed through illustrated the water intakes of the irrigation system along the Busuanga River. He discussed the area wherein dredging should be undertaken in order to avoid future inadequacy of irrigation water resource. Illustration of Mr. Arevalo is herein attached.

S/N	KEY STAKEHOLDERS/ RELEVANT INTERESTED PARITES	APPROVED/DISAPPROVED THE BUSUANGA RIVER DREDGING PROJECT	KEY MINUTES/COMMENTS/REMARKS
			However, Mr. Arevalo, suggested the construction of training walls before the water intakes in order to control the flow or divert water flow during wet season thus preventing flooding in the low-lying areas. -Mr. Arevalo mentioned that there is an ongoing feasibility study to construct reservoir in upland. The reservoir will be a big help in sustaining water irrigation resource during dry season and the same time in preventing flash floods/floods during wet seasons. They are looking at other options to build the reservoir since the proposed area is an ancestral domain.
MAY 17, 2022			
6	LGU BARANGAY SAN AGUSTIN, SAN JOSE OCCIDENTAL MINDORO	APPROVED	-EIGEL Site Inspection Team presented before the Barangay Council led by Barangay Captain about the process to undertake in the application of the ECC; -barangay is dependent on deep well because no safe drinking water due to intrusion of salt water -It was mentioned during the interview that there are two Irrigators Associations in the Barangay. One of the associations is headed by Barangay Kagawad Leopoldo F. Azuela; farmers depend on Busuanga River for irrigation water -they prefer on dredging using backhoe not the siphoning type because the latter may reach the seabed;;; depth; maghahalo

PUBLIC SCOPING REPORT			
Application for Environmental Compliance Certificate (ECC) on Busuanga River Occidental Mindoro Dredging Project for Royal Crown-Tarlac 3G& Partners 12-1C EGI Rufino Tower, Buendia Avenue corner Taft Avenue, Pasay City, Philippines			
S/N	KEY STAKEHOLDERS/ RELEVANT INTERESTED PARTIES	APPROVED/DISAPPROVED THE BUSUANGA RIVER DREDGING PROJECT	KEY MINUTES/COMMENTS/REMARKS
10	MUNICIPAL ENVIRONMENTAL NATURAL RESOURCES OFFICE OF SAN JOSE OCCIDENTAL MINDORO	APPROVED	-The MENRO give copies of FLUP and ESWM Plan to be used for the River Dredging Project -The Agency agrees on the dredging activity but there should be a program on improvement of watershed
11	BUREAU OF FISHERY AND AQUATIC RESOURCES- PROVINCIAL FISHERY OFFICE	APPROVED	-The representatives of BFAR agrees to the river dredging project -The Office is willing to help in the project; they will send the 2020-2021 production report and list of fisherfolks to identify/determine the target beneficiaries of SDMP and IEC Campaign plans.

Overall Statement:

Based on the Minutes of the KII/FGD conducted to all key stakeholders, it is clearly shown that said stakeholders approve the dredging of the Busuanga River. However, the key stakeholders proposed that there must be mitigating measures to be implemented before, during and after the dredging. It is noted that the mitigating measures proposed are the construction of seawalls, gabions, scour checks – the objective of which is flood prevention and river siltation.

May 11, 2022

Hon. Romulo D. Festin
Municipal Mayor
Municipal Government Compound Rizal Street
Barangay Poblacion VII 5100
San Jose, Occidental Mindoro

SUBJECT: REQUEST FOR THE CONDUCT OF KEY INFORMANT INTERVIEW ON THE
BUSUANGA RIVER DREDGING PROJECT

Dear Mayor Festin,

Warmest greetings!

This refers to the preparatory activity for the preparation of Environmental Impact Statement for Busuanga River Dredging Project in your municipality.

DENR Administrative Order 2020-02 provides for Guidelines on Public Participation for the Proposed River Restoration Project through River Dredging. Accordingly, the activity shall include the conduct of Key Informant Interview with the identified stakeholders.

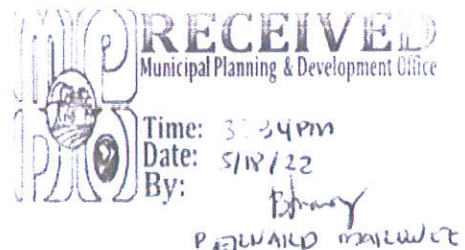

It is noted that your Office is one of the identified stakeholders, hence, we would like to conduct a joint interview with the Representatives from the following offices - Municipal Planning and Development Office, Municipal Disaster Risk and Reduction Management Office, and the Municipal Engineering Office, beginning May 16 to May 20, 2022 via google meet or any online platform. Attached is the interview template for your immediate reference.

For clarifications, your staff may coordinate with the representatives of EIGEL Management Consulting, our technical consultant for the ECC application: Engr. Legilyn de Asis, the Project Manager or Engr. Catherine C. Cena, Project Admin Officer through this email address eigelmgmtconsulting@gmail.com or telephone numbers 09778141208, 09368591600, 09088640340.

Thank you very much.

Respectfully yours,

DAVID DELA CRUZ
President

Warmest greetings!

This refers to the preparatory activity for the preparation of Environmental Impact Statement for Busuanga River Dredging Project in the municipalities of Rizal and San Jose, Occidental Mindoro.

DENR Administrative Order 2020-02 provides for Guidelines on Public Participation for the Proposed River Restoration Project through River Dredging. Accordingly, the activity shall include the conduct of Key Informant Interview with the identified stakeholders.

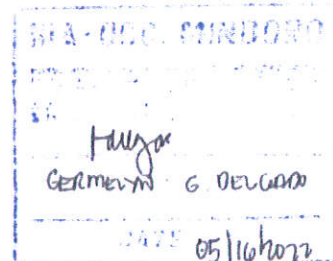

It is noted that your office is one of the identified stakeholders, hence, we would like to conduct a Key Informant Interview beginning May 16 to May 20, 2022 via google meet or any online platform. Attached is the interview template for your immediate reference.

For clarifications, your staff may coordinate with the representatives of EIGEL Management Consulting, our technical consultant for the ECC application: Engr. Legilyn de Asis, the Project Manager or Engr. Catherine C. Cena, Project Admin Officer through this email address eigelmgmtconsulting@gmail.com or telephone numbers 09778141208, 09368591600, 09088640340.

Thank you very much.

Respectfully yours,

DAVID DELA CRUZ
President

SUBJECT: REQUEST FOR THE CONDUCT OF KEY INFORMANT INTERVIEW ON THE
BUSUANGA RIVER DREDGING PROJECT

Dear Governor Gadiano,

Warmest greetings!

This refers to the preparatory activity for the preparation of Environmental Impact Statement for Busuanga River Dredging Project in your municipality.

DENR Administrative Order 2020-02 provides for Guidelines on Public Participation for the Proposed River Restoration Project through River Dredging. Accordingly, the activity shall include the conduct of Key Informant Interview with the identified stakeholders.

It is noted that your Office is one of the identified stakeholders, hence, we would like to conduct a joint interview with the Representatives from the following offices - Provincial Planning and Development Office, Provincial Disaster Risk and Reduction Management Office, Provincial Agriculture Office, and the Provincial Engineering Office, beginning May 16 to May 20, 2022 via google meet or any online platform. Attached is the interview template for your immediate reference.

May we also request a copy of your Provincial Development and Physical Framework Plan (PPDF).

For clarifications, your staff may coordinate with the representatives of EIGEL Management Consulting, our technical consultant for the ECC application: Engr. Legilyn de Asis, the Project Manager or Engr. Catherine C. Cena, Project Admin Officer through this email address eigelmgatconsulting@gmail.com or telephone numbers 09778141208, 09368591600, 09088640340.

Thank you very much.

Respectfully yours,

G. Sample Key Informant Interview Questionnaire

Programs, Projects, Activities (PPAs)	Implementation Strategy	Effectiveness			Constraints
		Not Effective	Least Effective	Most Effective	

4. Are there any presence of local ordinance/s in the municipality, province, or in the region relative to river basin development? What are the current local policies and ordinances being adopted in the area?

5. Considering the concerns identified, list the current programs, projects and activities (PPAs) of your institution to address the various concerns in the Busuanga river dredging project area . What are the methods or strategies in the implementation of these PPAs? Determine the effectiveness of the projects.

6. What are the monitoring and evaluation activities and tools of your institution? What are the impacts of your PPAs to the river dredging project? To the land and water users?

7. In cases of non-adoption of your PPAs, identify the sustainable land and water management practices implemented by land users to maintain land productivity and ecosystem services.

8. Based on your knowledge, experience and monitoring, what are your future plans or proposed PPAs to further conserve and sustain the land and water resources in the areas?

9. Are there other PPAs to avoid siltation?
10. What are the collaborators, stakeholders and implementers that support your agency in the sustainable management of the river basin?
11. Is there a council overseeing the activities within the water source of the Busuanga river specifically? If there are none, are there any plans?
12. What is the possible impact of river dredging? How can It help in the river restoration in Busuanga river?
