Department of Environment and Natural Resources
DENR by the Bay Bldg, Roxas Boulevard
Ermita 1515, Manila

Subject: Request for a Meeting for the Permits Related to Rights Over Water for the Offshore Wind Energy Project in Bulalacao, Oriental Mindoro

Dear **Director Claudio**,

Greetings!

CleanTech Global Renewables, Inc. is an independent power producer and a renewable energy project developer in the Philippines. Our renewable energy project portfolios include solar and wind energy with combined indicative capacity of approximately 2500 MW. One of our pipeline greenfield project is the Bulalacao Bay Offshore Wind Energy Project. This was awarded by the Department of Energy with Wind Energy Service Contract No. 2021-08-172. The project, with a potential capacity of 1200 MW, is located in the offshore regions of Bulalacao, Oriental Mindoro and Caluya, Antique.

Currently, we are under the predevelopment stage of the project and are securing clearances and permits in compliance to regulatory requirements. As the project area is located in an offshore region, we would like to discuss with you about the necessary permits and requirements for the securement of rights over offshore regions. May we know if you are available for a meeting on June 20, 2022 at 02:00 PM to further discuss this? Let us know if you would prefer a virtual or face-to-face meeting. For more information regarding the project, please do not hesitate to get in touch with our Junior Project Manager, **Engr. Gil Bilang** via mobile phone at +63 917 302 7251 or email him at gil.bilang@cleantech.ph. Attached is the location of the Bulalacao Bay Offshore Wind Energy Project for reference.

We look forward to your kind support and assistance. Thank you very much.

Best regards,
