Dear Sir/Madam,

Greetings!

Please see attached file. This is a letter requesting the immediate investigation in Sibuyan Island regarding an illegal road construction that has seen the destruction of vegetation and clearing of the site. This goes directly against the rules and procedures set by the DENR.

Kindly acknowledge this receipt of this letter as well. Otherwise, we will formally call on the Presidential Complaint Center (PCC) to further invoke a response in case there is a failure to take action even at this level.

We hope for your immediate and swift action.

- Adrian Asoy
