Dear USec Leones:

First of all let me commend you for appearing on TV at Teleradyo and admitting that partly DENR (particularly by Coron CENRO) has a share of blame for the illegal reclamation and quarrying (IRAQ) in Coron, Palawan.

May we, Sagip Coron Palawan (SCP) core group, invite for a meeting and dialogue so we can work together in:

1. Sharing information and getting the facts straight from your office and us, SCP, sharing what we have gathered so far to date.
2. Being updated on all SCP initiatives particularly on working with pertinent branches in government like DENR, PRA, MGB, ES, DOT, AFP, LGU, PCSD etc including the evil proponents of IRAQ so you may have a better perspective on the depth and breadth of the situation and what SCP has accomplished so far in almost 2 1/2 months.
3. Filing administrative, civil, criminal and other kinds of cases to both proponent and their "partners" in government from top to bottom. This will certainly be not just a threat to the proponents' and it's "partners" but a real and live case to be filed against them so DENR will further earn it's respect to the proponents as well the very people that DENR serves
4. Please involve the people whom you think can help us in our discussion so we can come up with ways on how to execute our next steps accurately and in the fastest way possible.

Please let us know your earliest availability.

I hope, pray and trust you will treat this with a sense of urgency given that Coron people are suffering every day, every hour. Their lives and livelihood were greatly affected by this IRAQ and every single day it is just a struggle for them to feed their families. More importantly, the situation in the IRAQ sites is a clear and present danger - especially the coming of rainy season which will CERTAINLY cause MAJOR FLOODS AND POSSIBLE STORM SURGES particularly in Barangay 5.

We will appreciate your immediate feedback on this.

Treat this as if God is calling you,

Marion Raagas

PS: I have attached video 1 and 2 so you will get a better perspective on Coron's IRAQ latest developments in 13 minutes.
